

Master Fluid Solutions Expands Mexico Operations with New Apodaca Warehouse

Global metalworking fluids leader strengthens regional logistics, product availability, and customer support in Mexico

PERRYSBURG, OH, UNITED STATES, August 11, 2026 /EINPresswire.com/ -- [Master Fluid Solutions®](#) is expanding its operational capabilities in Mexico with the addition of a new warehouse location in Apodaca, Nuevo León, Mexico. The new facility supports Master's continued growth and strengthens the company's ability to serve customers with more localized inventory, logistics support, and product availability in the region.

Master Fluid Solutions' new warehouse location in Apodaca, Nuevo León, Mexico.

The warehouse is located at FFCC Anillo Periférico No. 805, 66627 Ciudad. Apodaca, N.L., Mexico, positioning the operation near Monterrey airport and within a key industrial region for manufacturing and distribution.

To support the new operation, Master Fluid Solutions is partnering with CH Robinson to handle customs importation, transportation, and warehousing. Third-party logistics services will be provided by Terminal Logistics, helping support efficient movement, storage, and fulfillment of materials for Master Fluids.

The new Monterrey-area facility includes eight dock doors, secure entry, and the ability to store hazmat materials. The location also provides room to support future growth, with current capacity noted at approximately 35%.

As part of this expansion, [Master Fluid Solutions Mexico](#) will begin transacting as Importer of Record into Mexico, further strengthening the company's regional supply chain structure and supporting a more streamlined importation process for stocked products.

The new warehouse will initially stock a broad selection of products from Master Fluid Solutions' industry-leading portfolio of metalworking fluids and cleaning solutions, enabling enhanced service and product availability for customers throughout the region.

Master Fluid Solutions continues to advance manufacturing performance through its comprehensive portfolio of [TRIM®](#) metalworking fluids, WEDOLiT™ forming and corrosion-control fluids, Master STAGES™ cleaning solutions, and XYBEX® fluid management systems.

With the addition of the Apodaca warehouse, Master Fluid Solutions continues to strengthen its regional support model—helping manufacturers in Mexico access the products, service, and supply chain reliability they need to operate with confidence.
