

Coinfest Asia 2026 Connects Institutions, Builders, and Traders to The World's Crypto Festival

BALI, INDONESIA, August 11, 2026
/EINPresswire.com/ -- [Coinfest Asia](#),
The World's Crypto Festival organized
by Indonesia Crypto Network (ICN), will
return to Melasti Beach, Bali,
Indonesia, on 20-21 August 2026,
bringing together institutions, builders,
traders, founders, investors,
developers, and global Web3
communities in one of Asia's most
dynamic crypto gatherings.

This year, Coinfest Asia will feature dedicated programs for different parts of the crypto ecosystem, helping attendees access relevant insights, networking opportunities, product showcases, and business connections across Asia's fast-growing crypto and Web3 markets.

What Attendees Can Do at Coinfest Asia

The 2026 edition departs from traditional conference formats by organizing content into three intent-based tracks. This structure is intended to align attendees with specific functional areas of the industry:

Institutional Track

Focused on digital asset adoption, stablecoin integration, and tokenization, the Institutional Track features a range of programs for regulators, financial institutions, enterprises, and industry leaders. These include Asia Go-To-Market Sessions, keynote sessions, panel discussions, and a series of Closed-Door Stablecoins & Tokenization Roundtable within Institutional Summit Powered by ICEX Group—comprising ICEX (Indonesia Crypto Exchange), Crypto Asset Clearing International (CACI), and International Crypto Custodian (ICC).

Builders Track

Geared toward developers and startups across AI, blockchain, and digital infrastructure. Programs include Gemini AI Masterclass, "What the Hack!" Web3 Developer Course, AI Vibe Code

Competition, Asia Go-To-Market Sessions, and sessions focused on product development and ecosystem growth.

Traders Track

Created for active traders and market participants looking to understand market narratives, sharpen trading strategies, and connect with trading communities. Programs include the Alpha Arena Grand Final, a global trading competition by MEXC Ventures, Alpha Hunting Masterclass, Yapper Masterclass, Bitcoin Crash Course, Live Degen Experience, trading-focused panels, and keynote sessions.

Through these tracks, Coinfest Asia aims to make the festival easier to navigate while keeping the experience open and connected across the wider crypto industry.

Opening Access to Asia's Web3 Markets

A core objective of the 2026 event is providing localized insight into Asian markets. The event introduces "Asia Go-To-Market Sessions," which provide briefings on regulatory environments, user behaviors, and growth channels in specific jurisdictions.

These sessions are organized in collaboration with regional ecosystem partners:

- Japan GTM Session with WebX 2026
- Malaysia GTM Session with MYBW 2026
- Indonesia GTM Session with Indonesia Crypto Network
- India GTM Session with India Blockchain Week 2026

Through these sessions, attendees can better understand local user behavior, regulatory direction, community dynamics, partnership opportunities, and distribution strategies across Asia.

"Asia is not one single market. Each country has its own users, regulations, culture, and growth channels," said Joditha Winatajaya, Head of Event at Coinfest Asia. "Through Asia Go-To-Market Sessions, we want to connect the audiences with the right local ecosystems, all in one place."

A Foundation Built on Industry Leadership

Coinfest Asia 2026 will feature speakers from across blockchain infrastructure, exchanges, wallets, stablecoins, payments, data, AI, institutional finance, venture capital, to Web3 communities.

Confirmed speakers include Charles Hoskinson (Founder, Input Output Group), Felix Fan (CEO, Trust Wallet), Alexander Svanevik (CEO, Nansen), Nick See Tong (APAC & Singapore Lead, Base), Iñaki Moreno (Strategic Partnerships Lead, Web3 & AI, Google), William Sutanto (CEO, INDODAX), Ploy Boonyavee (Thailand/Indochina Country Manager, Tether), Gabriel Rey (CEO, TRIV Group), Calvin Kizana (CEO, Tokocrypto), Angela Ang (APAC Managing Director and Singapore President, BitGo), Tianwei Liu (CEO, StraitsX), Thomas Chou (Head of APAC, Canton Foundation), Akshat

Vaidya (Co-Founder, Maelstrom) and more.

The event is also supported by leading companies across the crypto, fintech, digital asset, and infrastructure sectors, including IDEX (Indonesia Crypto Exchange), Crypto Asset Clearing International (CACI), International Crypto Custodian (ICC), MEXC Ventures, Triv, Tokocrypto, Binance, Duitku, ClickHouse, CockroachDB, BYDFi, Zoomex, FundedXYZ, WalletConnect, GOIDR, GudangKripto, with more partners to be announced.

Since its launch, Coinfest Asia has grown into one of the world's leading crypto gatherings, bringing together global companies, local ecosystems, builders, traders, institutions, and communities in Bali.

The 2026 edition builds on that momentum by combining industry programming with a festival environment designed for more fluid interaction. Beyond the main stages, Coinfest Asia will feature expo areas, curated business matching, networking activations, product showcases, community gatherings, and side events across the festival experience.

[Tickets for Coinfest Asia 2026](#) are now available. Companies looking to expand into Asian crypto markets can also explore partnership and marketing opportunities through the official event channels.

About Coinfest Asia

Coinfest Asia is the world's largest crypto festival, organized by [Coinvestasi](#), a subsidiary of Indonesia Crypto Network (ICN). Held annually in Bali, Indonesia, the event brings together institutions, builders, and traders to connect, collaborate, and drive the future of digital assets in Asia and beyond.
