

Apriorit Earns Microsoft Solutions Partner for Digital & App Innovation (Azure) Designation

The designation recognizes Apriorit proven capabilities in building, modernizing, and managing secure, scalable applications using Microsoft Azure technologies

LYNN, MA, UNITED STATES, August 11, 2026 /EINPresswire.com/ -- Apriorit, a software engineering company specializing in complex, security-focused solutions, has earned the Microsoft Solutions Partner for Digital & App Innovation (Azure) status.

Apriorit, Microsoft Solutions Partner

The designation recognizes Apriorit's technical expertise, investment in Microsoft-certified specialists, and demonstrates ability to deliver successful solutions using Microsoft technologies. Microsoft awards Solutions Partner status based on measurable criteria related to partner performance, technical skilling, and customer success.

What the designation means for Apriorit clients

For clients planning new Azure projects or modernizing existing applications, the designation provides additional confidence that Apriorit has the expertise and delivery experience required to work effectively with Microsoft's cloud ecosystem.

Clients working with Apriorit can benefit from:

- Azure solutions designed according to Microsoft best practices, with a focus on reliability, security, scalability, and maintainability;
- More efficient resolution of complex technical challenges, supported by Apriorit's access to Microsoft partner resources, tools, and technical knowledge;
- Reduced technical and architectural risks through informed technology selection, careful solution design, and proven cloud engineering practices;
- Support throughout the application lifecycle, from architecture planning and cloud migration to

application modernization, DevOps implementation, optimization, and maintenance.

“Earning the status of a Microsoft Solutions Partner for Digital & App Innovation is an important milestone for Apriorit. It confirms the strength of our Azure expertise and the results our teams deliver for clients. More importantly, it strengthens our ability to help businesses make informed architectural decisions and build secure, scalable cloud solutions that support their long-term goals,” said Klaudia Zaika, CEO of Apriorit.

Apriorit’s cloud engineers help companies design new cloud-native applications, modernize legacy systems, migrate workloads, implement scalable cloud infrastructure, automate development and deployment processes, and optimize the performance and cost of existing environments.

Apriorit’s official Microsoft partner profile is available in the Microsoft Commercial Marketplace.
