

Skinergy Launches Collagen-Infused Energy Drink Nationwide

New zero-sugar drink pairs marine collagen peptides and caffeine, offering an ingestible alternative to traditional energy drinks.

NEW YORK, NY, UNITED STATES, August 11, 2026 /EINPresswire.com/ --

[Skinergy](https://www.skinergy.com), a functional beverage company, recently announced the nationwide launch of its zero-sugar energy drink formulated with marine collagen peptides, niacinamide, biotin and caffeine. The product is now available at [drinkskinergy.com](https://www.drinkskinergy.com) and is aimed at consumers seeking an energy drink alternative that also supports skin, hair and nail health.

Skinergy's zero-sugar energy drinks are formulated with collagen, caffeine and vitamins to support energy and skin health.

The beverage enters a growing category of functional drinks that pair everyday use cases, such as energy and hydration, with additional wellness-oriented ingredients. Each can contains 105mg

of caffeine and 4000mg of collagen peptides, with a flavor profile the company says was developed to avoid the aftertaste often associated with collagen supplementation.

“

The taste is honestly what got me, super crisp and fresh. Then I realized I wasn't crashing later like I normally do which made me keep buying it.”

Isabella (Real Review)

"I spent years reaching for energy drinks that gave me the boost I needed but took something else in return," said Alda Karen Hjaltalin Lopez, founder of Skinergy. "I wanted to find a way to fuel ambition without sacrificing how I felt in my own body or my own skin. Skinergy was built for

people who work hard and want to feel as good as they look doing it."

The company has built [early traction among consumers](#) already engaged in skincare and beauty routines, positioning the drink as a complementary, ingestible option alongside topical products. Skinergy is currently available in 2 flavors through [drinkskinergy.com](https://www.drinkskinergy.com), with plans to expand its

retail footprint through 2026 and 2027.
