

ClickFunnels 3 Months for \$99 Discount Now Available for New Users

Latest ClickFunnels discount gives new customers three months of Scale plan access for just \$99 instead of the regular \$591.

ID, UNITED STATES, August 11, 2026 /EINPresswire.com/ -- The latest ClickFunnels discount gives new customers three months of Scale plan access for \$99, a \$492 reduction from the regular three-month cost of \$591.

ClickFunnels Discount - 3 Months for \$99

A ClickFunnels discount offering new customers three months of access to the Scale plan for \$99 is currently available, providing an alternative to signing up at the standard \$197 monthly rate.

Under the promotion, eligible new users pay \$99 for their first three months of ClickFunnels Scale. At the regular monthly price, the same three-month period would cost \$591, making the difference \$492, or approximately 83%.

Information about the [ClickFunnels 3 months for \\$99](https://www.3monthsfor99.com/) offer, including current pricing, eligibility, and instructions for accessing the promotion, is available at:

<https://www.3monthsfor99.com/>

The offer gives new customers more time to build and launch sales funnels before standard Scale plan billing begins.

ClickFunnels Scale Access Reduced to \$99 for Three Months

The promotion applies to ClickFunnels Scale, one of the platform's main paid plans for businesses using funnels, websites, email marketing, CRM, courses, checkout flows, and related online sales tools.

The pricing difference during the introductory period is straightforward:

- ClickFunnels discount price: \$99 for three months
- Regular Scale price: \$197 per month
- Regular cost for three months: \$591
- Savings during the promotional period: \$492
- Effective introductory cost: approximately \$33 per month
- Eligibility: new ClickFunnels customers

The \$99 promotion is an introductory discount rather than a permanent reduction in the price of ClickFunnels Scale. Customers who keep their accounts after the promotional period should expect standard subscription billing to begin according to the terms presented at checkout.

Longer Access Gives New Users Time to Launch a Funnel

The length of the promotion is one of the main differences between the ClickFunnels \$99 offer and a conventional short software trial.

A brief trial can provide enough time to explore a platform or experiment with its page builder. Three months gives users more time to build a complete funnel, connect a domain, configure products and payments, create follow-up emails, launch a campaign, and evaluate how the system performs in an actual business environment.

The promotion also provides Scale plan access during this period rather than introducing a separate, limited promotional version of ClickFunnels.

For entrepreneurs, marketers, course creators, coaches, and online businesses already planning to launch a funnel, the extended period can provide a more practical opportunity to evaluate the platform before paying its regular monthly price.

The \$99 Promotion Is Intended for New ClickFunnels Customers

The ClickFunnels 3 months for \$99 discount is intended for new users and is accessed through a dedicated promotional signup path rather than by entering a traditional coupon code.

New customers interested in the promotion can visit 3MonthsFor99.com, review the current offer details, and follow the link to the promotional ClickFunnels signup page.

Because ClickFunnels also makes other introductory offers available at different times, users should review their options before creating an account. Starting with a different signup offer may affect eligibility for the three-month promotion.

The \$99 offer should also be evaluated based on its ongoing cost, not only the introductory discount. The promotion lowers the cost of the first three months, while users who continue

afterward move to standard subscription pricing according to the terms displayed during enrollment.

ClickFunnels Discount Represents \$492 in Introductory Savings

At the regular Scale rate of \$197 per month, three months of service totals \$591. Reducing that amount to \$99 creates a \$492 difference during the promotional period.

That makes the ClickFunnels \$99 for 3 months deal equivalent to approximately \$33 per month for the introductory period and roughly 83% below the regular cost of paying for Scale monthly over the same three months.

The discount does not guarantee business results or change the long-term price of the Scale plan. Its primary benefit is reducing the initial cost and extending the amount of time a new customer has to build and evaluate funnels before regular billing begins.

Offer availability, eligibility requirements, plan features, pricing, renewal terms, and other conditions can change. Prospective customers should review the current terms presented during signup before purchasing.

Where to Find the ClickFunnels 3 Months for \$99 Offer

New customers can review the current ClickFunnels discount, confirm offer details, and find instructions for accessing the ClickFunnels 3 months for \$99 promotion at:

<https://www.3monthsfor99.com/>

The independent website provides information specifically about the \$99 introductory promotion, including how the discount works, how much it saves compared with regular Scale pricing, who may qualify, and how new users can access the promotional signup page.

About 3MonthsFor99.com

3MonthsFor99.com is a dedicated website for the ClickFunnels 3 months for \$99 discount, providing new customers with current offer details, Scale plan pricing, eligibility information, promotional savings, and access to the \$99 signup offer.

The website helps new users understand how the ClickFunnels discount works, compare the \$99 promotional price with regular Scale pricing, and access the promotional signup process.
