

Body By Ravi Plastic Surgery & Associates Welcomes Dr. Mathew Moreno, Expanding Facial Surgery in Houston

The fellowship-trained plastic surgeon brings advanced facial aesthetic training and a restoration-focused approach to the growing Houston practice.

HOUSTON, TX, UNITED STATES, August 12, 2026 /EINPresswire.com/ -- Body By Ravi Plastic Surgery & Associates has welcomed fellowship-trained plastic surgeon [Dr. Mathew Moreno](#), expanding the practice's [facial surgery](#) program and giving Houston patients access to a broader range of surgical options for the face and neck.

A Texas native who is fluent in English and Spanish, Dr. Moreno offers facial, breast, and body surgery, with a particular focus on facial rejuvenation. His arrival builds upon the practice's established breast and body surgery program while allowing more patients to receive specialized facial care in the same private, physician-led setting.

The expansion also strengthens the connection between surgical facial rejuvenation and the nonsurgical services available through [RISE Med Spa](#). When appropriate, patients can incorporate treatments that improve skin quality, complement surgical results, and support long-term maintenance.

ADVANCED FACIAL SURGERY TRAINING WITH A FOCUS ON NATURAL RESULTS

Dr. Moreno completed a six-year integrated plastic surgery residency at the University of Kansas Medical Center, where he served as Chief Resident of the Cosmetic Clinic. He then completed advanced aesthetic surgery fellowship training at an ASAPS-accredited program in New York City, gaining experience with a high volume of complex facial aesthetic cases.

He further pursued focused mentorship with leading facial aesthetic surgeons in the United

States and Europe, refining his understanding of facial anatomy, proportion, surgical technique, and the judgment required to create natural-looking results.

Dr. Moreno has also served as a Clinical Assistant Professor of Surgery at SUNY Downstate Health Sciences University. His academic background includes peer-reviewed research in plastic surgery, reconstructive surgery, and perioperative patient safety. He has been inducted into the Alpha Omega Alpha Medical Honor Society and the Gold Humanism Honor Society.

“My philosophy has always been rooted in the simple goal of helping you look like yourself, only refreshed,” said Dr. Moreno. “Exceptional results often come down to restraint and judgment, preserving the character that makes each person unique.”

EXPANDED FACIAL REJUVENATION OPTIONS FOR HOUSTON PATIENTS

Dr. Moreno’s arrival expands the facial procedures available at Body By Ravi Plastic Surgery & Associates. His services include Deep Plane Facelift, Neck Lift, Eyelid Surgery (Blepharoplasty), Facial Fat Grafting, Chin Augmentation, Buccal Fat Removal, and Lip Lift.

These options allow him to address concerns ranging from early changes along the jawline to more advanced aging across the face and neck. Rather than approaching each concern in isolation, Dr. Moreno evaluates facial structure, skin quality, tissue position, and the relationship between the face and neck before recommending treatment.

Consultations with Dr. Moreno are personal and pressure-free. He takes time to understand what each patient wants to improve, explains what is realistic for their anatomy, and recommends the approach most likely to create a balanced result. This philosophy aligns with the standard of care established by founder and board-certified plastic surgeon, Dr. Ravi Somayazula, who spent years searching for a surgeon with the skill, judgment, and character to

help expand the practice.

SURGICAL AND NONSURGICAL CARE IN ONE LOCATION

Dr. Moreno performs surgery at Houston Plastic Surgery Center, the private, on-site, QuadA-accredited surgical facility connected to Body By Ravi Plastic Surgery & Associates. General anesthesia cases are supported by physician anesthesiologists, and dedicated surgical and

recovery spaces provide privacy throughout the experience.

Patients can also receive nonsurgical aesthetic care through RISE Med Spa, led by Director of Medical Aesthetics Dr. Swapna Gopathi. This coordinated model gives patients access to surgical treatment, skin rejuvenation, and ongoing aesthetic maintenance within one Houston location.

Dr. Moreno is now accepting consultations for facial, breast, and body surgery at Body By Ravi Plastic Surgery & Associates in Houston’s Energy Corridor.

About Body By Ravi Plastic Surgery and Associates

Body By Ravi Plastic Surgery & Associates is a Houston plastic surgery practice offering facial, breast, and body procedures in a private, physician-led setting. Founded by board-certified plastic surgeon Dr. Ravi Somayazula, the practice is known for individualized surgical planning, honest patient education, and natural-looking results. Its Houston location also brings together RISE Med Spa and Houston Plastic Surgery Center, a private, on-site, QuadA-accredited surgical facility. This integrated model supports continuity from consultation and surgery through recovery, nonsurgical treatment, and long-term aesthetic maintenance.
