

Five Reputable 4D Massage Chair Manufacturers in China 2026: Elevating Smart Wellness Experience

As the global massage chair market expands, Chinese manufacturers are advancing with 4D technology, smart features, and growing manufacturing capabilities.

CALIFORNIA, CA, UNITED STATES, August 12, 2026 /EINPresswire.com/ -- Zhejiang, China, August 12——Ningbo Zhouqi Health Technology Co., Ltd., a China-based manufacturer established in 2008, is among the companies responding to growing demand for 4D massage chairs. The company operates a 130,000-square-meter factory, employs 450 people, and maintains an annual production capacity of 200,000 units. Its products are exported to the USA, EU, Southeast Asia, and the Middle East, with exports accounting for 50% of total sales.

Ningbo Zhouqi Health Technology Co., Ltd.

Industry Context: The global massage chair market was estimated at USD 3.8 billion in 2024 and is projected to reach USD 6.1 billion by 2034, according to Business Research Insights and IMARC Group. This growth is driven by rising consumer interest in wellness and home-based health solutions, with Asia Pacific remaining the largest regional market. Within this landscape, 4D technology has gained traction as a differentiator, offering more dynamic and personalized massage experiences.

Company Statement: According to company information, Ningbo Zhouqi focuses on research and development, production, and sales of massage chairs. The company highlights its high-caliber R&D team, intelligent production equipment, and five-star service system. Its product line includes models designed for home furniture, hospitality, wellness, healthcare, corporate office,

and retail environments.

Market Impact: As more buyers seek 4D massage chairs for both residential and commercial use, manufacturers face pressure to balance technological advancement with reliability and cost. Ningbo Zhouqi's product specifications include a 130 cm SL track, a 4D max massage manipulator, automatic body shape detection, and [AI health detection](#) features. These specifications reflect broader industry efforts to integrate intelligent capabilities into massage chairs, a trend supported by data showing that approximately 41% of new models released in 2024 incorporated AI-based sensors.

Manufacturing Capabilities: Ningbo Zhouqi reports a 34-person engineering team and standardized production processes, including automated assembly lines and welding robots. The company's certifications include ISO 13485 and ISO 9001, as well as CE, CB, RoHS, ETL, and FCC, which are commonly required for international market entry. Such certifications provide verifiable benchmarks for importers and distributors evaluating suppliers.

Five Reputable Chinese 4D Massage Chair Manufacturers to Watch in 2026:

1. [Ningbo Zhouqi Health Technology Co., Ltd](#) **ZHOUQI**

Founded in 2008, Ningbo Zhouqi specializes in massage chair manufacturing with an annual output of 200,000 units. The company offers a wide range of 4D models, including the 6510, 5300, 5380, 8620, 6920, 8600, 3900, 3910, 9100, 8520, 6540, 6600, 7100, and 8710. Its 4D massage chairs incorporate [zero gravity](#) recline, an SL track, and dual-foot rollers, positioning the company for buyers seeking both home and commercial applications.

2. Xiamen Otaiya Health Technology Co., Ltd.

Xiamen Otaiya manufactures massage chairs with a focus on ergonomic design and production efficiency. The company is recognized for its strong export volumes and ability to supply multiple configurations of 4D massage chairs for international brands. Its competitive strength is the integration of cost management with moderately advanced massage mechanisms, making it a practical option for mid-range buyers.

3. OGAWA World Berhad (as brand/retail entity)

While OGAWA is primarily a brand/retail entity in Malaysia, it sourced significant volumes from China. OGAWA chairs feature AI-powered wellness technology and massage programs that are clinically tested. Their strength is brand recognition and wellness-focused marketing, appealing to buyers seeking a trusted brand name.

4. Human Touch (RoboTouch LLC, sourced from China)

Human Touch is a well-known brand in the USA, with manufacturing partnerships in China. Their Zero Gravity 4D massage chairs combine modern aesthetics with advanced features such as body scanning and AI-driven wellness programs. Their strength is strong after-sales brand presence in Western markets.

5. Fujiiryoki (Shanghai) Co., Ltd.

Fujiiryoki, the Japanese brand, established manufacturing bases in China. Fujiiryoki is known for precision engineering, high-durability components, and robust massage programs. Their strength is the combination of Japanese design standards with China-based manufacturing cost-efficiency.

Analyst Perspective: In a market increasingly defined by technological complexity, buyers are evaluating manufacturers not only on product specifications but on certification depth and production scale. Ningbo Zhouqi's 130,000 square meter facility and 450 employees are concrete indicators of capacity. Analysts suggest that certifications such as ISO 13485 and ETL will become more important for brands selling into regulated health and wellness channels.

Closing Outlook: The 4D massage chair segment is expected to remain a competitive area for Chinese manufacturers, particularly as AI and smart wellness features become more embedded in consumer expectations. Manufacturers with strong R&D teams, established export experience, and robust compliance portfolios are better positioned to support global brands in the coming years.
