

DPVR Announces Strategic Partnership with VR Expert as Exclusive Distributor for P1 Max in Europe and North America

VR Expert to Drive Global Expansion of DPVR P1 Max Across Enterprise and Immersive Entertainment Markets

SHANGHAI, SHANGHAI, CHINA, August 12, 2026 /EINPresswire.com/ -- DPVR, a leading provider of professional XR hardware solutions, today announced a strategic partnership with VR Expert, a Netherlands-based XR solutions provider, appointing VR Expert as the exclusive distributor of the DPVR P1 Max standalone VR headset across Europe and North America.

Under the agreement, VR Expert will support the expansion of DPVR P1 Max across Europe and North America, strengthening DPVR's presence across commercial applications, immersive entertainment, and professional training markets.

As one of DPVR's flagship enterprise-focused VR devices, DPVR P1 Max is designed to meet the growing demand for high-quality immersive experiences. Featuring 8K panoramic video support, optimized visual performance, and reliable standalone operation, P1 Max provides an ideal solution for various professional scenarios, including:

- XR entertainment and immersive theaters — enabling audiences to experience high-resolution immersive content without complex installations.

P1 max Specification

- Education and training — supporting interactive learning, vocational training, and simulation-based education.
- Enterprise applications — providing a scalable XR hardware platform for industries such as safety training, manufacturing, and customer experiences.
- Location-based entertainment (LBE) — offering stable performance for commercial VR experiences.

“With the rapid growth of immersive content and enterprise XR adoption, choosing the right distribution partner is essential for expanding our global presence,” said Derek Liu, COO, DPVR. “VR Expert has extensive experience in XR solutions and a strong understanding of European and North American markets. We believe this partnership will accelerate the adoption of DPVR P1 Max among businesses and organizations seeking reliable VR solutions.”

VR Expert: Expanding XR Solutions Across Global Markets

Founded in the Netherlands, VR Expert is an experienced XR solutions provider specializing in professional VR hardware, software integration, and immersive technology solutions. The company works with organizations across multiple industries, helping businesses deploy XR applications including training, simulation, healthcare, education, and entertainment. With strong expertise in VR deployment and enterprise solutions, VR Expert has established itself as a trusted partner for companies looking to integrate immersive technology into their operations. Through this partnership with DPVR, VR Expert will leverage its market experience and distribution network to introduce P1 Max to a broader range of customers across Europe and North America.

Strengthening DPVR's Global XR Ecosystem

The partnership with VR Expert represents another important step in DPVR's global expansion strategy. By combining DPVR's hardware innovation with VR Expert's regional expertise, both companies aim to provide customers with more accessible, reliable, and scalable XR solutions. Moving forward, DPVR and VR Expert will continue to explore new opportunities in immersive entertainment, enterprise training, and professional XR applications, bringing advanced VR experiences to organizations worldwide.

About DPVR

DPVR is a global XR technology company specializing in the design, development, and manufacturing of VR headsets and AI-powered smart glasses. Since its establishment, DPVR has provided XR solutions for entertainment, education, enterprise training, healthcare, and industrial applications. With extensive experience in hardware innovation and global market deployment, DPVR is committed to making immersive technology more accessible worldwide.
