

CDAO Government 2026 Returns to Washington, D.C. Bringing Together Senior Public Sector Data, AI, and Digital Leaders

WASHINGTON, DC, UNITED STATES, August 12, 2026 /EINPresswire.com/ -- CDAO Government 2026 returns to Washington, D.C. for its 14th edition, bringing together senior data, analytics, AI, and digital transformation leaders from across the U.S. public sector to explore how government organizations are turning emerging technologies into measurable operational impact.

As agencies navigate rapid technological change, increasing demands for efficiency, and evolving expectations for public services, CDAO Government provides a forum for leaders responsible for advancing data strategy, AI adoption, digital modernization, and enterprise transformation across federal, state, and local government.

Over two days, the conference will feature practical insights, real-world case studies, and implementation strategies from government leaders working to operationalize AI, strengthen data governance, modernize digital infrastructure, and build trusted data ecosystems that support better decision-making and improved outcomes.

The 2026 program features leaders from organizations including the U.S. Department of the Treasury, U.S. Department of State, Food and Drug Administration, State of Maryland, New York State Department of Health, NASA Goddard Space Flight Center, ATF, and more.

View full speaker faculty and agenda: <https://cdao-gov.coriniumintelligence.com/agenda> Key themes for 2026 include:

- Operationalizing AI and agentic AI across government
- Strengthening data governance, quality, and interoperability
- Modernizing digital infrastructure and legacy systems
- Scaling AI securely and responsibly

- Enabling cross-agency collaboration through trusted data environments
- Building workforce readiness for the AI era
- Improving citizen services through data-driven decision-making

The conference agenda will explore how government leaders are moving beyond AI experimentation to build scalable capabilities, including discussions on AI readiness, enterprise data platforms, responsible AI adoption, digital transformation, and the future of data-driven public services.

Designed for Chief Data Officers, Chief AI Officers, CIOs, CTOs, digital transformation executives, program leaders, and senior government decision-makers, CDAO Government 2026 creates a collaborative environment for exchanging ideas, sharing lessons learned, and advancing the future of public sector innovation.

Registration for CDAO Government 2026 is now open.
