

AI Architect and Innovator Denise Glasscock Recently Featured on Close Up Radio

WESLEY CHAPEL, FL, UNITED STATES, August 13, 2026 /EINPresswire.com/ -- Prominently featured in The Inner Circle, Denise Glasscock is acknowledged as a Pinnacle Professional Member Inner Circle of Excellence for her contributions in Artificial Intelligence, Cloud Innovation, and Healthcare Technology.

Denise Glasscock has built an exceptional career at the intersection of artificial intelligence, cloud computing, healthcare innovation, and enterprise technology. Recognized for transforming complex technologies into practical solutions, she has dedicated her career to improving patient engagement, advancing healthcare outcomes, and building resilient technology infrastructures for organizations worldwide.

Throughout her career, Ms. Glasscock has led major initiatives across healthcare, life sciences, enterprise architecture, and cloud innovation. Most recently, she served as Innovation Lead for Artificial Intelligence in Healthcare and Life Sciences at Accenture, where she led the development of advanced AI-driven solutions to enhance patient independence and improve the healthcare experience. Her work included collaborating with healthcare technology organizations to create solutions that connect patients with families, caregivers, and support communities.

Ms. Glasscock's expertise spans cloud and AI architecture, enterprise technology strategy, digital health platforms, business continuity, and assistive technologies utilizing artificial intelligence and virtual reality. She has also held leadership positions with Microsoft, VMware, IBM, Lockheed Martin, and the University of Georgia, contributing to large-scale technology modernization

efforts and enterprise transformation initiatives.

Her educational background includes studies at Auburn University and the University of Alabama at Birmingham, where she completed coursework in Criminal Justice, History, Computer Science, and Pre-Law. She earned a Bachelor of Science from the University of Alabama at Birmingham and pursued graduate studies in Computer and Information Sciences at the University of Alabama. Professionally, she holds credentials as a Certified Technology Architect and has earned multiple certificates in Artificial Intelligence, Machine Learning, and OpenStack technologies.

An accomplished diver, she is a Master Scuba Diver with more than twenty advanced specialty certifications, several of which she helped develop for the Professional Association of Diving Instructors (PADI). She has also held instructor certifications with both PADI and the International Diving Educators Association (IDEA). Throughout her diving career, she has been a strong advocate for accessibility, working with individuals with disabilities to remove barriers and expand participation in underwater sports.

A proud veteran, Ms. Glasscock served on Explosive Ordnance Disposal (EOD) dive teams in the United States Navy. Her military experience instilled the resilience, discipline, and leadership principles that continue to guide her professional success.

Outside of her career, Ms. Glasscock actively supports Wounded Warriors Abilities Ranch, spinal cord and brain injury organizations, and service dog initiatives. She and her spouse, Terry, share a passion for advocacy and helping individuals overcome physical challenges.

Looking ahead, Ms. Glasscock plans to continue her advocacy to assist people with disabilities and veterans who want to enter the civilian workforce. She is looking forward to working in technology that supports AI solutions for healthcare and Life Sciences organizations, including hospitals and rehabilitation centers, and to implementing AI and virtual reality technologies to support stroke recovery, speech improvement, and patient rehabilitation.

Guided by a philosophy of service and innovation, Ms. Glasscock remains committed to leveraging technology to improve lives, strengthen patient outcomes, and create meaningful solutions for individuals facing healthcare challenges.

About Denise Glasscock

Denise Glasscock is CEO of InnovalifeCloud Consulting and a technology executive with a career spanning IBM, Microsoft, VMware, Accenture and the U.S. Navy. She specializes in enterprise architecture, cloud transformation, AI, automation and digital modernization. Her client roster includes Fortune 500 companies, government agencies, and healthcare organizations. In addition, Glasscock has advised more than 40 CTOs and led strategic technology initiatives worldwide. She is a trusted partner to executive leaders who seek measurable business

outcomes from their technology investments.
