

MISSION CRITICAL INTERIOR SOLUTIONS BRINGS PRECISION AND OPERATIONAL EXCELLENCE TO DATA CENTER ANTI-CONFERENCE USA 2026

DCAC brings together the companies forging the Fifth Utility and the infrastructure powering the AI economy.

AUSTIN, TX, UNITED STATES, August 12, 2026 /EINPresswire.com/ -- As the digital infrastructure industry continues to expand to meet unprecedented demand for AI and cloud computing, Mission Critical Interior Solutions ([MCIS](#)) is reinforcing its commitment to the people and partnerships driving that growth as a Platinum Sponsor of the 2026 [Data Center Anti-Conference](#) (DCAC USA), taking place Aug. 24–26 at ACL Live at The Moody Theater in Austin.

“

MCIS has built its reputation on precision, reliability and long-term partnerships; values that reflect exactly what DCAC stands for, and we're proud to welcome them as a Platinum Sponsor of DCAC USA.”

David Isaac, President, DCAC-Live

MCIS is a leading provider of integrated interior infrastructure solutions for mission-critical and data center environments. The company supports customers throughout the project lifecycle, from design engineering and preconstruction through procurement, prefabrication, logistics, installation, and project completion.

MCIS delivers a comprehensive portfolio of specialized infrastructure solutions tailored for mission-critical and data center environments. From raised access flooring to fully integrated HAC solutions and bespoke structural steel, these capabilities are backed by in-house design and

engineering, offsite prefabrication and integration, and highly experienced field installation teams.

"Every successful data center depends on people who are committed to doing the job right every

time," said David Isaac, President of [DCAC-Live](#). "MCIS has built its reputation on precision, reliability and long-term partnerships. Those values reflect exactly what DCAC stands for, and we're proud to welcome them as a Platinum Sponsor of DCAC USA."

Guided by its "Mission First, People Always" philosophy, MCIS combines engineering expertise, specialized capabilities, safety, and disciplined execution to help customers deliver increasingly complex data center infrastructure projects with speed, quality, and confidence.

"The data center industry is growing and changing at an extraordinary pace. One of the greatest challenges we face is developing enough skilled people to support that growth. As an industry, we must invest more deliberately in attracting talent, providing practical training, and creating meaningful development opportunities, while continually adapting to new technologies and an ever-changing operating landscape.

MCIS is proud to support DCAC Austin and participate alongside the organizations and leaders working to address these challenges. Events like DCAC give us the opportunity to share experiences, strengthen relationships, and have the practical conversations needed to develop our people and move the industry forward."

— Charl Kinghorn, Executive Vice President, MCIS

Now in its 11th year, DCAC has become known as the data center industry's "anti-conference," bringing together the leaders advancing AI infrastructure, resilient power, construction, operations and the technologies powering what DCAC calls the Fifth Utility. Through candid conversations and authentic relationship-building, DCAC continues to unite the community shaping the future of digital infrastructure.

About DCAC USA

Now in its 11th year, DCAC USA has become known as the industry's "people's conference," bringing together the leaders, builders, investors and innovators shaping the future of digital infrastructure. The 2026 conference theme, Operation: Full Throttle – Forging the 5th Utility and Battling Data Center Misconceptions, focuses on advancing meaningful dialogue, workforce development and collaboration across the rapidly evolving data center industry.
