

Quality Center for Rehabilitation and Healing Announces On-Site Hemodialysis Services Through Dialyze Direct

LEBANON, TN, UNITED STATES, August 12, 2026 /EINPresswire.com/ -- [Quality Center for Rehabilitation and Healing](#) is proud to announce the availability of on-site hemodialysis services through its partnership with Dialyze Direct, bringing greater convenience, comfort, and continuity of care to patients and residents requiring dialysis during their rehabilitation stay.

This innovative service allows patients with Chronic Kidney Disease (CKD) and End-Stage Renal Disease (ESRD) to receive life-sustaining hemodialysis treatments without leaving the center. By eliminating the need for transportation to off-site dialysis centers, patients can focus on what matters most: healing, recovery, and regaining their independence.

"At Quality Center, our mission is to provide compassionate, patient-centered care that supports every aspect of our residents' recovery," shared Julie Grisham, Administrator at Quality Center for Rehabilitation and Healing. "Partnering with Dialyze Direct allows us to deliver dialysis services right here in our community, reducing the stress of traveling to outside appointments and allowing our patients to remain focused on their rehabilitation. This service enhances both the quality of care we provide and the overall experience for our patients and their families."

Patients receiving dialysis at Quality Center for Rehabilitation and Healing benefit from:

- Convenient on-site hemodialysis treatments
- Reduced transportation challenges and travel-related fatigue
- Fewer disruptions to rehabilitation therapy schedules
- Less anxiety associated with off-site appointments
- Individualized, person-centered care plans
- Enhanced coordination between dialysis and rehabilitation teams
- A more comfortable healing environment focused on recovery

At Quality Center for Rehabilitation and Healing, patients have a voice in developing their plan of care. The interdisciplinary team works closely with each individual to ensure dialysis treatments are seamlessly integrated into their rehabilitation program, supporting improved outcomes and a more positive patient experience.

The on-site dialysis program reflects Quality Center for Rehabilitation and Healing's ongoing

commitment to advancing healthcare services and providing comprehensive rehabilitation solutions tailored to the unique needs of every patient.

By combining skilled nursing, rehabilitation therapies, and convenient in-house dialysis services, Quality Center for Rehabilitation and Healing continues to set a higher standard for compassionate, coordinated care that helps patients return to healthier, more active lives.
