

NewVue Partners with Strategic Radiology to Bring Unified Workflow Orchestration to Independent Private Practices

Agreement gives Strategic Radiology's member practices preferred pricing and access to NewVue's interpretation workspace, plus training and education resources.

TAMPA, FL, UNITED STATES, August 18, 2026 /EINPresswire.com/ -- [NewVue](#), a leading provider of cloud-native software that unifies how radiologists work while improving practice efficiency, today announced a

partnership with Strategic Radiology, a coalition of 50 independent, radiologist-owned practices representing over 2,500 radiologists nationwide. Through the agreement, Strategic Radiology member practices gain preferred access to NewVue's platform through the coalition's group purchasing program, along with expanded educational opportunities for their teams.

"Strategic Radiology has earned a strong reputation for helping shape the future of private practice radiology," said Kyle Lawton, CEO and Co-Founder of NewVue. "We believe technology should create meaningful value not only by reducing operational complexity, but also by giving practices a more flexible and cost-effective path to modernization. We are excited about this partnership and to bring unified workflow orchestration to more independent radiology teams."

NewVue is a radiology workflow orchestrator that unifies case assignment, patient context, and native reporting into one [interpretation workspace](#). It connects with existing PACS, clinical systems (RIS, EHR), and AI tools, enabling radiology practices to modernize their workflows without a rip-and-replace of existing systems and processes.

"Strategic Radiology is committed to advancing innovation that strengthens independent private practice and improves patient care," said Scott Bundy, MD, FACR, CEO and Chair of the Board, Strategic Radiology. "Adding NewVue to our group purchasing agreement gives our member practices more cost-effective access to technology that unifies their reading workflow and

reinforces our coalition's focus on clinical quality and physician-led care."

The partnership aligns with Strategic Radiology's mission to create superior radiology value through collaboration and innovation. NewVue's approach supports that goal by providing member practices with a way to modernize their operations while improving efficiency and patient care.

About NewVue

NewVue is a health IT company building cloud-native software that unifies how radiologists work while improving practice quality and efficiency. Its platform delivers a singular intelligent workspace, the Radiologist's Cockpit, and orchestrates the entire radiology interpretation experience from case assignment through reporting. The platform runs alongside the practice's PACS of choice, connects to existing clinical systems (RIS, EHR) and integrates siloed AI tools, bringing [intelligent worklist](#) orchestration and native reporting together in one environment. The approach is unlocking improvements in patient outcomes, radiologist satisfaction and practice scalability. NewVue was founded by the team behind PeerVue, which created the industry's workflow orchestration category. Learn more at www.newvue.ai.

About Strategic Radiology

Established in 2009, Strategic Radiology (SR) is a national coalition of 50 privately owned independent radiology practices that represent over 2,500 radiologists. SR exists to improve quality, gain operational efficiencies, and shape the future of private practice radiology. SR established the nation's first imaging-specific Patient Safety Organization listed by the Agency for Healthcare Research and Quality, and offered members shared savings through group purchasing, strategic partnerships, and proprietary services.
