

Polestar Analytics and Jedox Strategic Partnership Drives Intelligent Enterprise Planning for Finance Leaders

Jedox partners with Polestar Analytics, pairing its leading EPM platform with Polestar's AI planning and data engineering expertise.

“

We help finance leaders harness the full power of intelligent planning to deliver faster insights, more accurate forecasts, and greater business agility.”

Gareth Morris, CRO, Jedox

adaptable planning and performance management platform, and Polestar Analytics, a leading AI and data analytics firm with one of the largest enterprise planning teams across APAC and the US, [today announced a strategic partnership](#) to accelerate digital transformation for Chief Financial Officers and finance organizations worldwide.

The partnership brings together two organizations with complementary strengths: Jedox’s award-winning, AI-

powered financial planning and performance management platform, recognized in the Gartner® Magic Quadrant™ for [Financial Planning Software](#), and Polestar Analytics’ proven expertise in AI-enabled planning, data engineering, and enterprise transformation across industries including Consumer Goods, Retail, Manufacturing, Pharmaceuticals, and Financial Services.

As organizations face growing pressure to plan faster, integrate AI into financial processes, and connect data across the enterprise, this partnership positions both companies to deliver end-to-end solutions that move finance teams from static reporting to intelligent, autonomous planning.

Empowering CFOs with AI-Driven Planning

Together, Jedox and Polestar Analytics will help organizations implement and scale Jedox’s planning platform while leveraging Polestar’s deep expertise in agentic AI, data orchestration, and domain-specific consulting. Joint customers will benefit from accelerated time-to-value, stronger data foundations, and planning solutions tailored to the realities of Finance, Supply Chain, Sales, and Workforce planning.

The collaboration is particularly timely as enterprises accelerate investment in AI-powered planning capabilities. Polestar Analytics' experience as a preferred global AI delivery partner—working with platforms including Anaplan, Microsoft, AWS, Snowflake, and Databricks—brings a multi-platform perspective that enhances Jedox deployments and ensures clients can connect their entire data ecosystem.

“We are excited to welcome Polestar Analytics as a strategic partner. Their expertise in AI, data engineering, and enterprise planning across high-growth industries perfectly complements Jedox’s platform capabilities. Together, we can help finance leaders harness the full power of intelligent planning to deliver faster insights, more accurate forecasts, and greater business agility.”

— Gareth Morris, CRO, Jedox

“The next generation of enterprise performance management will be defined by AI, automation, and faster decision-making, not static planning processes,” said Chetan Alsisaria, CEO, Polestar Analytics. “Our partnership with Jedox combines an intelligent, AI-powered planning platform with Polestar Analytics’ Enterprise AI Engineering expertise, enterprise planning capabilities, industry accelerators, and proven transformation experience. Together, we’re helping organizations modernize finance and planning, accelerate time to value, and deliver measurable business outcomes.”

Serving High-Growth Industries Globally

The Jedox–Polestar Analytics partnership will initially focus on joint go-to-market activities across Consumer Goods & Retail, Manufacturing, Pharmaceuticals, and Financial Services—sectors where both organizations have deep domain expertise and established client bases. With a presence across the United States, APAC, and Europe, the partnership is positioned to serve global enterprises at scale.

Joint initiatives will include co-developed solution accelerators, shared go-to-market campaigns,

The screenshot displays the JedoxAI interface within a 'Sales Dashboard'. The dashboard includes filters for Version, Budget, Month (2025), Period, Year to Date, and Legal Entity. A 'DRILL ANYWHERE' section shows a pivot table with columns for Legal Entity, Product, Region, Type Sales, Status Sales, and Currency. The table data is as follows:

	2026-02	2026
	Actual	Budget
✓ All customers	8,859	7,276
AMER	2,998	2,529
EURO	2,599	2,069
> ASIA	3,262	2,678

Below the table is a bar chart titled 'Sales (€)' showing data for various product lines: Trekking-2000 Blue..., Off-Road-100 Blue..., Cross-150 Silver 44, Off-Road-500 Red 40, and HI Cross Handlebars. The values are 11,396, 7,972, and 1,020 respectively. A 'Forecast 3+9' is also indicated.

The JedoxAI chat window is open on the right, displaying a greeting: 'Hello! I'm JedoxAI, here to help you get the most out of your data. How can I assist you today?'. It shows a user request: 'Show me last 6 months in the columns and show version actual and version budget below the months in the columns'. The AI response states: 'I've updated the view to show the last 6 months in the columns, with Version Actual and Version Budget below the months.' There is a 'Summarize Information' button and a prompt box with the text 'Ask me like "Show me bike sales this month!"

JedoxAI creates a structured table for a planner

and collaborative delivery on complex planning transformations that require both deep platform expertise and domain-specific consulting capabilities.
