

Zion Health Launches New Vanilla Bean Scent for CLAYDRY® BOLD Deodorant Collection

New Vanilla Bean fragrance brings a soft, smooth scent to Zion Health's extra-strength, aluminum-free CLAYDRY® BOLD deodorant line.

SAN FRANCISCO, CA, UNITED STATES, August 17, 2026 /EINPresswire.com/ -- [Zion Health Inc.](#), a wellness brand known for its earth-derived, clay-based personal care products, announces the launch of [CLAYDRY® BOLD Vanilla Bean Deodorant](#), introducing a new Vanilla Bean scent to its extra-strength deodorant collection.

Created for those who want effective odor protection with a softer, more inviting fragrance, the new scent highlights the smooth, comforting character of Vanilla Bean without becoming overly sweet or overpowering. It expands the CLAYDRY® BOLD collection with a warm, wearable scent designed for everyday use.

While fragrance gives the new deodorant its distinctive Vanilla Bean experience, CLAYDRY® BOLD is formulated to do more than simply cover up odor. Sweating is the body's natural cooling process, and fresh sweat itself is generally odorless. Underarm odor develops when naturally occurring bacteria on the skin interact with components of sweat.

CLAYDRY® BOLD is formulated to help neutralize odor associated with bacteria and help prevent odor buildup throughout the day. Its aluminum-free formula combines ionic clay minerals, magnesium, zinc, baking soda, arrowroot powder, and tapioca starch to help manage odor and absorb excess moisture while allowing the body's natural sweating process to continue.

Zion Health CLAYDRY Vanilla Bean is an aluminum-free deodorant that delivers extra strength odor protection in a vegan, paraben-free formula.

CLAYDRY® BOLD Vanilla Bean helps:

- Neutralize odor instead of simply masking it
- Help prevent odor buildup throughout the day
- Absorb excess moisture
- Provide extra-strength aluminum-free odor protection
- Support a clean, comfortable underarm feel

Zion Health's signature ionic clay minerals help bind impurities and odor-causing compounds on the skin, while magnesium and zinc support the formula's odor-control system. Aloe vera, jojoba oil, shea butter, and botanical oils help condition the skin.

The introduction of Vanilla Bean brings a new scent profile to the CLAYDRY® BOLD collection, pairing the line's extra-strength odor protection with a soft, smooth vanilla fragrance. The result is a deodorant designed for consumers who want dependable daily freshness with the familiar, comforting scent of Vanilla Bean.

CLAYDRY® BOLD Vanilla Bean is aluminum-free, phthalate-free, sulfate-free, paraben-free, gluten-free, vegan, and cruelty-free.
