

Katmai Stories Launches Free Wildlife Safety, National Parks, and Fat Bear Week Educational Resources for Classrooms

Free Banff, Jasper, Bear Safety, Wildlife Safety, and Alaska Fat Bear Week Resources Now Available for Teachers and Families

ATLANTA, GA, UNITED STATES, August 13, 2026 /EINPresswire.com/ -- As educators prepare for the new school year, Katmai Stories is making available a growing collection of free educational resource packs and complimentary educator book copies designed to help elementary students explore wildlife, conservation, outdoor safety, and North America's most iconic national parks.

Available at KatmaiStories.com, the resources are designed for teachers, homeschool families, librarians, and youth leaders seeking engaging ways to introduce real-world science, geography, reading, and conservation topics into the classroom.

With students returning to classrooms across Alberta and North America, the resources offer timely opportunities for educators to introduce meaningful discussions about wildlife, conservation, national parks, and responsible outdoor recreation.

Designed for both elementary classrooms and homeschool families, the resources are available in PreK-2 and Grades 3-5 versions, with each pack containing more than 50 engaging activities aligned to reading, writing, science, geography, and critical-thinking skills.

3rd-5th Grade

WILDFIRE SAFETY
HELP PROTECT OUR FORESTS!
Wildfires can happen naturally, but we can help prevent them by following these rules:

- CAMPFIRES**
• Only use campfires in designated areas.
• Never leave a campfire unattended.
• Make sure your campfire is completely out before you leave.
- STAY ON TRAILS**
• Stay on designated trails.
• Don't cut across fields or forests.
- PICK UP TRASH**
• Pick up all your trash.
• Leave no trace.
- GIVE WILDLIFE SPACE**
• Watch for wildlife.
• Don't feed or touch wildlife.

KEEPING BEARS WILD!
Wild bears can be dangerous. We can help protect them by following these rules:

- WILD BEARS FIND OUR FOOD**
• Don't leave food or trash around.
• Don't feed bears.
- HUMAN FOOD CAN BE DANGEROUS**
• Don't leave food or trash around.
• Don't feed bears.
- CLEAN CAMPS, KEEP BEARS WILD**
• Clean up all your trash.
• Leave no trace.
- WE PROTECT BEARS BY BEING RESPONSIBLE**
• Don't leave food or trash around.
• Don't feed bears.

**FREE FOR
TEACHERS/ HOMESCHOOL**

www.katmaistories.com/elementary-resources

The growing collection includes resources focused on bear safety, wildlife safety, Banff National Park, Jasper National Park, conservation, and Alaska's Fat Bear Week, helping students explore real wildlife and real places through hands-on learning experiences. The free resources are designed to support environmental literacy while providing engaging back-to-school activities that connect science, literacy, geography, and conservation learning.

A Fun Back-to-School Icebreaker

The resources were created to help educators bring engaging, real-world topics into the classroom during the first weeks of school.

From sharing family travel experiences and wildlife encounters to discussing national parks, conservation, and outdoor safety, the activities provide meaningful opportunities to break the ice, encourage classroom participation, and spark curiosity about the natural world.

Complimentary Digital Books for Educators

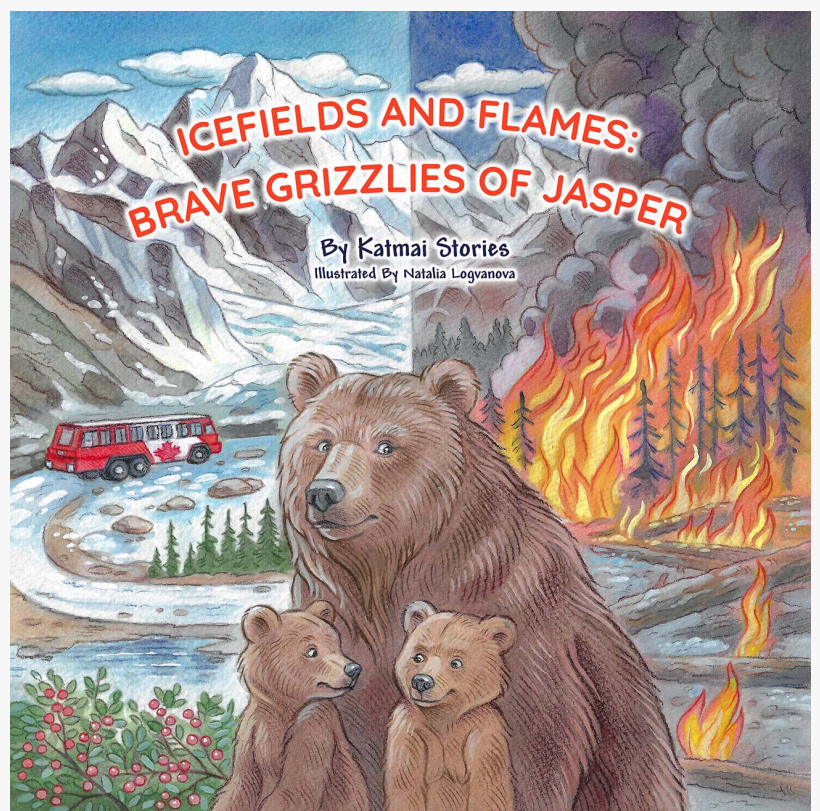

Teachers and homeschool educators may also request complimentary digital copies of Katmai Stories books through the company's website.

Featured Canadian titles include:

Little Grizzly Who Walked Like a Boss

Inspired by the legendary Boss Bear 122 of Banff National Park, this story introduces young readers to one of the Canadian Rockies' most well-known grizzly bears while teaching lessons about wildlife awareness, conservation, and respect for nature.

Icefields and Flames: Brave Grizzlies of Jasper

Icefields and Flames: Brave Grizzlies of Jasper is inspired by the true story of Bear 222 and her cubs surviving the Jasper wildfires. The children's book introduces young readers to wildlife resilience, conservation, and the natural beauty of Jasper National Park.

Based on the true story of Bear 222 and her cubs, Icefields and Flames: Brave Grizzlies of Jasper follows a courageous grizzly family as they survive and adapt during the Jasper wildfires. The story introduces children to themes of resilience, habitat recovery, conservation, and the challenges wildlife face in a changing environment.

Both Canadian books are available through major retailers and select independent bookstores in Banff, Calgary, Jasper, and Canmore, with Canadian distribution through Alpine Book Peddlers and international distribution through Ingram.

The books are suitable for classroom reading, family learning, and vacation preparation for those visiting national parks throughout North America.

Real Bear Stories That Inspire Learning

Katmai Stories creates children's books and educational resources inspired by real bears, real national parks, and real conservation stories from across North America.

The National Park Bear Adventures books blend fiction with real-world inspiration to support environmental literacy among young readers. The books are frequently used by parents, educators, and caregivers to introduce wildlife awareness, conservation, and responsible outdoor recreation, particularly for families who live in or travel through bear country across Canada and the western United States.

Preparing Classrooms for Fat Bear Week

Katmai Stories is also helping educators prepare for Fat Bear Week, the annual celebration of Alaska's famous brown bears from Katmai National Park.

The free Fat Bear Week resource packs explore brown bear biology, salmon ecosystems, wildlife observation, adaptation, and conservation through hands-on learning activities inspired by real

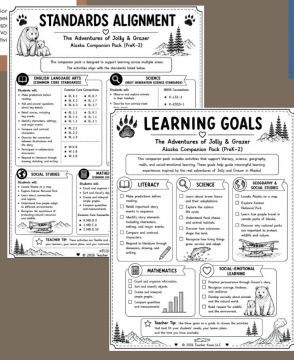

ALASKA FAT BEAR WEEK ACTIVITIES FOR ELEMENTARY SCHOOL

**PreK-
2nd Grade**

**3rd-
5th Grade**

**FREE FOR
TEACHERS/ HOMESCHOOL**

www.katmaistories.com/elementary-resources

Katmai Stories' free Fat Bear Week educational resource packs help elementary students explore Alaska's Katmai National Park through hands-on activities focused on brown bears, salmon ecosystems, wildlife observation, conservation, and environmental stewa

Katmai bears.

The resources complement Katmai Stories' Alaska-themed books, including:

The Adventures of Jolly, the Alaskan Bear Cub: Discover Alaska's Katmai National Park, Brooks Falls, and the Famous Salmon Run with a Curious Bear Cub

and

Little Grazer, Big Dreams: An Alaskan Bear Story: Meet Bear 128, the Real-Life Katmai Legend and Fat Bear Week Champion

These stories are inspired by Jolly (Bear 335) and Grazer (Bear 128), two well-known brown bears from Katmai National Park and expected contenders in this year's Fat Bear Week competition.

By following the stories of real bears, students gain a deeper understanding of wildlife behavior, survival, adaptation, and the importance of protecting national parks and wild places.

Building Future Wildlife Stewards

"Children are naturally fascinated by bears and wildlife," said Victoria Tudor, founder of Katmai Stories. "Whether they're learning about Boss Bear in Banff, Bear 222 in Jasper, or the famous brown bears of Katmai National Park, these stories help connect students with real animals, real places, and real conservation lessons."

By offering free educational materials and complimentary educator book copies, Katmai Stories hopes to support teachers while inspiring the next generation of wildlife stewards, outdoor explorers, and conservation advocates.

Learn More

Educators can immediately download resource packs, request complimentary digital review copies, and access classroom activities aligned to both Canadian and American wildlife topics at:
