

Ikon Science unites Petrosys Group and Omnira Software under the Ikon Science brand

Three Trusted Names. One Company. Unlimited Possibilities.

HOUSTON, TX, UNITED STATES, August 13, 2026 /EINPresswire.com/ -- [Ikon Science](#) announced that [Petrosys](#) Group and [Omnira Software](#) have united under the Ikon Science brand, giving

“

Bringing together Ikon Science, Petrosys Group, and Omnira Software marks an important milestone in our evolution. Each business has built a strong reputation within its area of expertise.”

Francisco Morillo, CEO, Ikon Science

customers access to one of the industry's most comprehensive software portfolios for the upstream energy sector.

The combined organization brings together complementary expertise spanning geoscience, subsurface data management, mapping, drilling workflows, reserves management, and asset development and optimization. Customers now have access to end-to-end solutions that support better decision-making and help maximize the value of their energy assets, backed by trusted technical expertise across the upstream lifecycle.

Francisco Morillo, CEO, Ikon Science, said: “Bringing together Ikon Science, Petrosys Group, and Omnira Software marks an important milestone in our evolution. Each business has built a strong reputation within its area of expertise. Together, we are creating a stronger organization with the scale, capabilities, and technical depth to deliver greater value for our customers today while investing in the technologies and expertise they will need tomorrow.”

Suri Bhat, CEO, Petrosys Group, said: “Petrosys Group is recognized for helping customers unlock greater value from their data, combining trusted software with industry-leading expertise in mapping and subsurface data management. The merger with Ikon Science builds on our longstanding success and positions us for the future, combining our proven expertise with greater resources, expanded technologies, and enhanced capacity to support our customers’ evolving needs.”

Francisco Gomez, CEO, Omnira Software, said: “I am excited about this next chapter for the Omnira team. Together with Ikon Science, we will extend our global reach, strengthen the value

we deliver to clients around the world, and accelerate innovation across reserves management, planning, and asset optimization for existing and future clients. This combination positions us to grow faster, serve more effectively, and create even greater impact for our customers."

Ikon Science's ambition is to be the trusted partner of choice for upstream energy operators. Building on more than 40 years of industry experience, we combine award-winning software, deep domain expertise, and collaborative customer partnerships to deliver innovative solutions and support customers worldwide.

Further information on the transition and the Ikon Science brand will be shared with customers and partners over the coming months.

About Ikon Science

Ikon Science is a global provider of software and technology solutions for the upstream energy industry. Bringing together the capabilities of Ikon Science, Petrosys Group and Omnira Software, the company delivers solutions spanning geoscience, subsurface data management, mapping, drilling workflows and asset lifecycle. www.ikonscience.com

About Petrosys Group

Petrosys Group is a provider of software and services that help energy companies manage, integrate and visualize subsurface data. Its solutions support exploration, appraisal and development workflows through industry-leading mapping, data management and collaboration capabilities. www.petrosysgroup.com

About Omnira Software

Omnira Software provides solutions that support reserves management, planning and asset optimization for upstream energy companies. Its software helps organizations improve decision-making, increase operational efficiency and maximize the value of their energy assets. www.omnirasoftware.com
