

SHarper Plastic Surgery & MedSpa Opens New Nora Location in North Indianapolis

SHarper Plastic Surgery & MedSpa opens its third location in Nora, expanding access to physician-led aesthetic care and plastic surgery in North Indianapolis.

INDIANAPOLIS, IN, IN, UNITED STATES, August 13, 2026 /EINPresswire.com/ -- [SHarper Plastic Surgery & MedSpa](#) has opened a [new location in Nora](#), bringing physician-led aesthetic care, injectable treatments, skin services, and plastic surgery consultations to North Indianapolis.

The Nora office is SHarper’s third location, joining its Avon and Fishers practices and giving patients across Indianapolis, Nora, Carmel, and nearby communities more convenient access to the practice’s physicians, nurse injectors, and licensed aestheticians.

“

Opening our new location is such an exciting milestone. As we’ve continued to grow, our mission has always been to provide exceptional care with a personalized approach backed by medical expertise.”

Dr. Jaime Harper

The expansion also has personal significance for [Dr. Stanley Harper](#) and Dr. Jaime Harper, who live in the Nora area. Friends, patients, and colleagues had been asking when SHarper would establish an Indianapolis presence. The new office allows the practice to meet that demand within a neighborhood the Harpers know well.

Located near stores and businesses many residents visit throughout the week, the office was selected with convenience in mind. The space also includes a large treatment room created specifically for CO2 laser procedures.

Nora Location Expands Physician-Led Aesthetic Care

Patients at the Nora office can schedule injectable treatments, aesthetic skin services, CO2 laser treatments, plastic surgery consultations, and postoperative appointments closer to home.

The provider team includes Master Injector Dr. Jaime Harper, nurse injectors Ashley Williams and

Whitney Osborn, and licensed aestheticians Angelika Coradin and Michelyn Sauder. Dr. Stanley Harper is also available for surgical consultations and postoperative care.

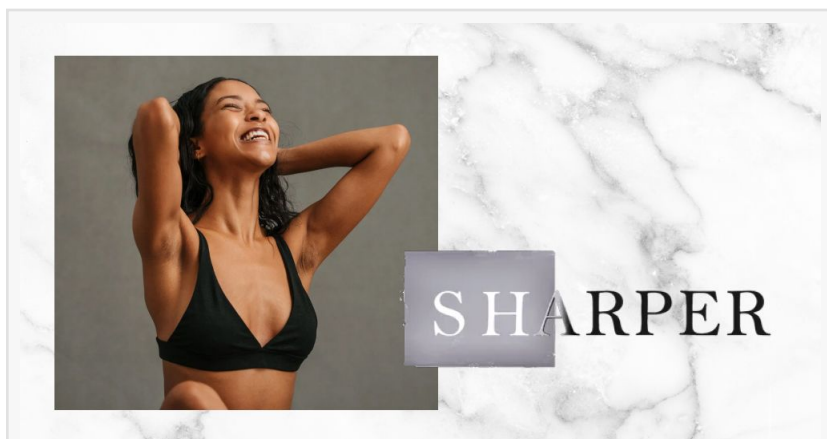

SHarper's physician-led model keeps medical oversight closely connected to treatment planning, staff education, and the patient experience. Patients receive care from a team that trains other aesthetic professionals in the area, with protocols and recommendations guided by direct physician leadership.

A central feature of the Nora location is its CO2 laser skin resurfacing capability. The treatment room was designed around the equipment, preparation, and recovery needs of advanced laser procedures.

CO2 laser resurfacing addresses sun damage, uneven skin texture, fine lines, and certain types of scarring. Each recommendation is based on the patient's skin, medical history, goals, and ability to accommodate the expected recovery period.

The practice creates customized aesthetic plans that may combine injectables, skincare, and energy-based treatments when appropriate. Every plan begins with a consultation so the provider can determine which services suit the patient's concerns and desired outcome.

"Opening our North Indianapolis location is such an exciting milestone for our team," said Dr. Jaime Harper, Master Injector at SHarper Plastic Surgery & MedSpa. "As we've continued to grow, our mission has always been to provide exceptional patient care with a personalized approach

backed by medical expertise. We look forward to welcoming both new and returning patients into this beautiful new space."

Greater Access for North Indianapolis Patients

The new Nora location gives patients in North Indianapolis more flexibility when scheduling routine treatments, skincare appointments, consultations, and follow-up care. It also offers a closer option for patients from Carmel and nearby communities who previously had to travel farther for appointments.

Across all three locations, SHarper focuses on individualized treatment planning over standard recommendations.

Patients can also move between different areas of care within the same practice. Someone may begin with injectables or skincare, return for laser treatment, or later meet with Dr. Stanley Harper to discuss surgery. That continuity allows the team to coordinate care and understand each patient's history over time.

Continued Growth Across Three Indiana Locations

The Nora opening marks another stage of growth for SHarper Plastic Surgery & MedSpa. The practice has served more than 15,000 patients and now operates three locations in Avon, Fishers, and Nora.

SHarper has built its model around direct physician involvement, personalized recommendations, and coordinated surgical and non-surgical care. The practice has also received Top Doctor recognition and continues to train aesthetic professionals in the region.

With the addition of Nora, SHarper now provides plastic surgery consultations, injectable treatments, laser services, facial treatments, body contouring, and skincare support across a wider portion of Central Indiana.

About SHarper Plastic Surgery & MedSpa

SHarper Plastic Surgery & MedSpa is a physician-led aesthetic practice serving patients in Avon,

Fishers, Nora, Indianapolis, Carmel, and surrounding Indiana communities. Led by board-certified plastic surgeon Dr. Stanley Harper and Master Injector Dr. Jaime Harper, the practice offers plastic surgery, injectables, dermal fillers, facial balancing, laser treatments, skin rejuvenation, body contouring, and professional skincare services. SHarper creates individualized treatment plans based on each patient's anatomy, goals, medical history, and preferences. The practice has served more than 15,000 patients across its three Central Indiana locations.
