

AblyWorks' AI Recruiter and ATS Draw Strong Enterprise Interest at TechHR India 2026

AI Recruiter, AI-powered Assessment, and ATS see strong traction from enterprise HR leaders at Asia's largest HR and WorkTech conference.

ALPHARETTA, GA, UNITED STATES, August 14, 2026 /EINPresswire.com/ -- AblyWorks, a fast-growing provider of AI-powered recruitment software and hiring automation platforms, today announced strong enterprise interest following its participation in People Matters TechHR India 2026, Asia's largest HR and WorkTech conference, held August 6–7 at the Yashobhoomi Convention Centre in Dwarka, New Delhi.

The two-day event brought together more than 5,000 HR, talent acquisition, and business leaders from across the region to explore AI-driven approaches to hiring and workforce transformation. AblyWorks showcased its integrated AI recruitment platform - including its [Applicant Tracking System \(ATS\)](#), [AI Recruiter](#), and [AI-powered candidate Assessment](#)

“

The interest in our AI Recruiter and AI Assessment products was well beyond what we expected.”

AblyWorks team engaging enterprise HR leaders at TechHR India 2026, New Delhi

away from legacy applicant tracking systems toward AI-native recruitment software that can screen, assess, and shortlist candidates at scale.

"The conversations we had at TechHR India confirmed what we've believed for a while: enterprises are actively looking for AI-first hiring tools that go beyond a traditional ATS," said Vidur Anand, Founder & CEO of AblyWorks.

"The interest in our AI Recruiter and AI Assessment products, in particular,

was well beyond what we expected. Several large organizations we spoke with are now evaluating AblyWorks for enterprise-wide deployment. Momentum like this validates the product roadmap we've been building toward and gives us a clear signal on where to focus as we scale." AblyWorks' platform is built to serve staffing agencies, high-growth startups, and enterprise talent teams across global markets including the United States, United Kingdom, Australia, Canada, the UAE, Saudi Arabia, Singapore, Ireland, and India. The company positions its product suite - spanning ATS, AI Recruiter, and AI-powered candidate Assessment, alongside its HRMS and Sales Intelligence Platform - as an end-to-end operating system for modern recruitment and go-to-market teams, consolidating tools that companies would otherwise stitch together from multiple point solutions.

The enterprise response at TechHR India comes as AblyWorks continues to expand its footprint across both Indian and international markets. The company has been scaling its go-to-market operations, deepening its product suite, and building out its team across its India and U.S. entities to support growing demand from staffing agencies and enterprise customers alike. AblyWorks is now prioritizing follow-up engagements with interested enterprise prospects from the event and expects continued momentum across the staffing and recruitment technology sector in the months ahead.

About AblyWorks

AblyWorks is a suite of AI-powered SaaS platforms for startups and corporates, built by AblyWorks AI Labs Private Limited in India and Datakraft LLC in the United States. The AblyWorks portfolio includes an Applicant Tracking System (ATS), AI Recruiter, AI-powered candidate Assessment tools, HRMS, and Reach - an AI-powered sales intelligence platform that brings together WhatsApp and email marketing, CRM, AI sales agents, and demo booking in a single platform. Together, these products give recruitment teams and go-to-market teams a unified, AI-native alternative to fragmented point solutions. AblyWorks serves customers across the United States, United Kingdom, Australia, Canada, the UAE, Saudi Arabia, Singapore, Ireland, and India. For more information, visit <https://www.ablyworks.com>.
