

Charles and Son Construction & Landscaping Serves Essex County, NJ Homeowners

Charles and Son Construction & Landscaping is a licensed and insured landscape construction company based in West Orange, New Jersey.

WEST ORANGE, NJ, UNITED STATES, August 14, 2026 /EINPresswire.com/ -- Charles and Son Construction & Landscaping continues to provide a comprehensive range of outdoor construction and landscaping services for residential and commercial properties across Northern New Jersey. The company serves communities including Glen Ridge, Livingston, Maplewood, Montclair, Short Hills, South Orange, Verona, and West Caldwell, offering integrated solutions that combine planning, construction, and installation for functional and visually cohesive outdoor spaces.

As homeowners and property managers continue investing in exterior improvements, demand has grown for contractors capable of managing multiple aspects of outdoor construction under one project. Charles and Son Construction & Landscaping provides landscape planning, hardscape construction, fencing, decking, irrigation, and outdoor lighting services that can be coordinated through a single project management process.

Operating from West Orange, New Jersey, the company has served residential and commercial

outdoor lighting services

Fence and deck installation

clients since 2008. Its projects are planned according to individual property conditions, applicable construction standards, and long-term outdoor functionality.

Integrated Outdoor Construction Services

Charles and Son Construction & Landscaping provides [landscape design services](#) that begin with customized planning and computerized design concepts. Each project is developed to complement the property's layout while considering grading, planting areas, hardscape placement, drainage, and usability. The planning process helps establish a cohesive outdoor environment before construction begins.

The company also performs [masonry services](#) for outdoor living spaces and structural landscape elements.

Masonry projects include patios, walkways, retaining walls, driveways, masonry steps, and other stone, brick, and concrete installations. These features are designed to improve accessibility, define outdoor spaces, and provide long-term structural performance using materials appropriate for New Jersey weather conditions.

Masonry work is integrated with surrounding landscape elements to create consistent outdoor environments while supporting property functionality.

Fence and Deck Construction for Outdoor Living

[Fence and deck installation](#) remains another core service offered by the company. Fences provide clearly defined property boundaries, privacy, and security, while decks create functional outdoor gathering areas for homeowners and families. Each project is designed according to site requirements, local building standards, and the overall landscape plan.

By integrating fencing and decking with surrounding landscape features, Charles and Son

Masonry -services

Landscape -Design Services

Construction & Landscaping helps create outdoor environments that balance functionality with visual consistency. Project planning also considers property layout, intended outdoor use, material selection, and long-term durability to support outdoor spaces that complement the overall design of residential and commercial properties.

Outdoor Lighting for Safety and Landscape Enhancement

The company also provides outdoor lighting services that combine functional illumination with landscape aesthetics. Lighting systems may be incorporated into walkways, patios, entrances, gardens, and other outdoor areas to improve visibility during evening hours while highlighting architectural and landscape features. Properly planned outdoor lighting may also contribute to improved navigation throughout residential properties after sunset.

Proper lighting design can also contribute to safer movement throughout residential and commercial properties by illuminating key pathways and gathering areas.

Irrigation Services Supporting Landscape Maintenance

The company provides irrigation services designed to support healthy landscapes through efficient water distribution. Irrigation systems are planned according to planting requirements, property size, grading, and landscape layout to help maintain lawns, gardens, shrubs, and other planted areas.

These services may be incorporated into new landscape installations or existing properties requiring irrigation upgrades, repairs, or maintenance. Properly designed irrigation systems can also help promote consistent watering schedules, support seasonal landscape care, reduce unnecessary water waste, and accommodate the changing needs of different plant varieties and outdoor environments throughout the year.

Serving Communities Across Northern New Jersey

The company provides its full range of services throughout Glen Ridge, Livingston, Maplewood, Montclair, Short Hills, South Orange, Verona, and West Caldwell. Projects are customized to reflect the unique characteristics of each property while maintaining consistent construction practices across every community served.

Whether developing a new landscape design, installing masonry features, constructing fences and decks, adding outdoor lighting, or improving irrigation systems, Charles and Son Construction & Landscaping coordinates projects to support long-term outdoor functionality and property improvement.

Coordinated Project Planning and Professional Execution

According to information published by the company, Charles and Son Construction & Landscaping employs a team of experienced professionals and maintains licensing with the New Jersey Department of Home Improvement Contractors. The company also states that it is insured and bonded, conducts employee background checks, and serves residential and

commercial clients throughout Essex, Union, Morris, and Passaic counties. These operational practices support project management, construction planning, and regulatory compliance for outdoor improvement projects.

As outdoor improvement projects continue to evolve, integrated planning remains an important consideration for property owners undertaking landscape and exterior construction work. The company continues to provide multiple outdoor construction services through a coordinated approach that adapts to site-specific conditions and project requirements.
