

Matric Named a Komatsu Midori-Kai Grand Partner After 54-Year Relationship

Northwestern Pennsylvania electronics manufacturer earns distinguished supplier recognition at Komatsu's North American Midori-Kai meeting

SENECA, PA, UNITED STATES, August 19, 2026 /EINPresswire.com/ -- [Matric Limited](#), a leading provider of electronic manufacturing services, has been named a Midori-Kai Grand Partner by [Komatsu](#) Ltd., marking a new milestone in a business partnership spanning more than 54 years.

A Midori-Kai supplier since 2017, Matric is part of a select group of key suppliers recognized by Komatsu. The Grand Partner designation elevates that standing and represents a significant achievement for the Seneca, Pennsylvania-based electronics manufacturer.

Matric CEO Rick Turner and Global Director of Sales Kirk Byerley joined Komatsu leaders at the 2026 North American Midori-Kai meeting in Louisville, Kentucky, where Matric was recognized as a Midori-Kai Grand Partner.

“

This distinction reflects the dedication, quality, and commitment of the entire Matric team, and we look forward to continuing this valued partnership for many years to come.”

Rick Turner, CEO, Matric

More Than 54 Years in the Making

Matric's history with Komatsu reaches back more than five decades through its predecessor, Joy. During that time, the companies have worked together through significant changes in technology, electronics manufacturing, and the industries they serve. The Grand Partner designation marks the latest chapter in that long-standing collaboration.

A Program Built on Trust

Komatsu Midori-Kai brings together the company's key business partners — those recognized for their critical contributions and consistently high standards.

Turner and Matric Global Director of Sales Kirk Byerley represented the company at the North American Midori-Kai gathering in Louisville, Kentucky, where senior Komatsu executives and key suppliers reviewed business conditions and discussed priorities across the strategic supplier network.

Matric will continue its participation later this year on an international stage at the Global Midori-Kai meeting in Tokyo, Japan, in November. The event will bring together Komatsu leadership and Midori-Kai members from around the world to share perspectives, foster collaboration, and build on the program's global partnerships.

About Matric

Founded in 1971 and headquartered in Seneca, Pennsylvania, Matric provides engineering, printed circuit board assembly, box build, and aftermarket services for customers across a range of industries.
