

Another Critter Gone Adds Full Pest Control Services in Cincinnati Area

Another Critter Gone expands to include pest control in the Cincinnati area, adding treatments for ants, spiders, bed bugs, roaches, and stinging insects.

CINCINNATI, OH, UNITED STATES, August 14, 2026 /EINPresswire.com/ --

Another Critter Gone announces expansion of its service portfolio to include pest control treatments, complementing the company's established animal removal expertise with solutions for insects and other

common household pests. According to the company, the expansion responds to customer requests for a single, trusted provider capable of addressing both wildlife intrusions and insect infestations. General pest control services and specialized bed bug and roach treatments are priced competitively to make reasonable for homeowners and businesses throughout the Greater Cincinnati Area.

Pest Control Services - Another Critter Gone

Insects create persistent nuisance issues, property damage, and health risks when they infiltrate homes and commercial buildings through cracks, crevices, foundations, and other structural vulnerabilities. Professional treatment becomes necessary because pests exploit even minor openings around door frames, window sills, weep holes, and eaves to establish colonies inside walls and living spaces. The new offerings represent a natural extension of the company's existing work, now addressing ants, spiders, earwigs, stink bugs, mud daubers, beetles, and other invaders that compromise indoor environments.

Treatment capabilities cover a broad spectrum of pest types, including general nuisance insects as well as stinging species such as hornets, wasps, yellow jackets, and bees. Specialized protocols target bed bugs and roaches with chemical applications and shop-vacuum removal of visible specimens, tailored to the severity and nature of each infestation. Service can often begin on the same day as the initial consultation or within a few days, addressing the urgency that

accompanies sudden pest activity.

[Ben Boehl](#) founded Another Critter Gone in 2010 after working in the animal removal industry since 2006, bringing nearly two decades of combined field experience to the expanded service lineup. The company operates as a licensed, insured limited liability company and holds a nuisance trapping license issued by the state of Ohio. This operational history supports customer confidence in the reliability and professionalism of the newly introduced treatments.

The expansion serves a wide geographic footprint across southwestern Ohio, including the Cincinnati metro area and communities such as Fairfield, Forest Park, Batavia, Lebanon, Liberty Township, Loveland, Mason, Maineville, Norwood, Milford, and Sharonville. Broad accessibility allows residential and commercial clients throughout the region to obtain both animal control and insect treatment from a single, established provider. Monthly service plans help maintain protective perimeters and address seasonal pest activity, reducing the likelihood of recurring problems and providing year-round protection.

Homeowners and businesses experiencing pest problems can contact Another Critter Gone by phone at 513.708.0369 or online to schedule an initial consultation and begin treatment. Additional details about services, pricing, and coverage areas are available at <https://acrittergone.com/>
