

Shop CRYSP Completes Domain Move: Crisp.co Is Now ShopCrysp.com

LOS ANGELES , CA, UNITED STATES, August 14, 2026 /EINPresswire.com/ -- [Shop CRYSP](#), an online retailer of lab-tested hemp-derived products for legally eligible adults, has completed the move of its primary web address from its longtime domain, Crisp.co, to a new domain, ShopCrysp.com. The change is limited to the company's web address. Product availability, lab-testing standards and customer service are unaffected.

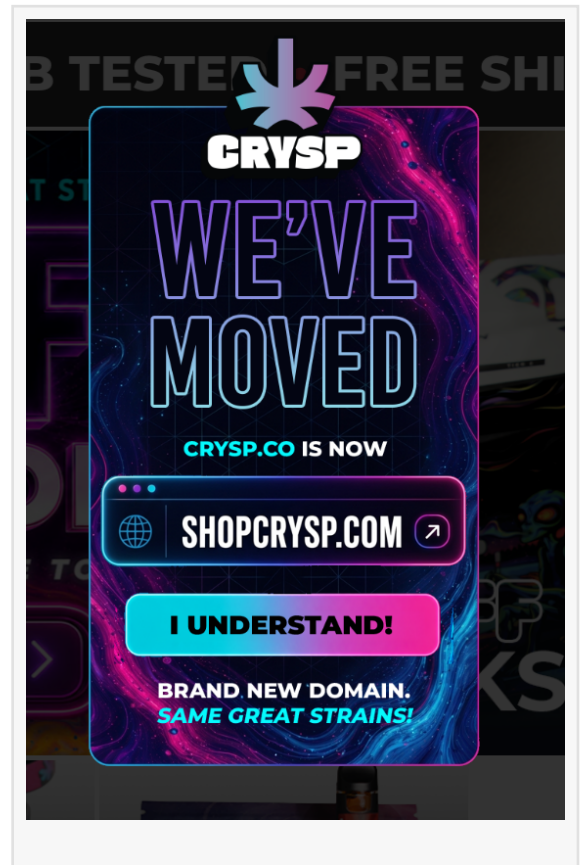

Visitors who navigate to the previous Crisp.co address are automatically redirected to ShopCrysp.com. According to Shop CRYSP, the update is part of an ongoing investment in its website and customer account systems, intended to create a more consistent experience across desktop and mobile devices.

The migration included moving customer accounts, order history and loyalty records to the new domain. Members of the company's existing loyalty program retain their account status and accumulated history, and no action is required to access an existing account. Login credentials, saved order history and stored preferences carry over unchanged.

Shop CRYSP is asking returning customers who have the previous address saved or bookmarked to update their records to ShopCrysp.com, to ensure they are reaching the company's official site going forward. The company notes that consolidating to a single primary domain is also intended to make it easier for customers to confirm they are on an authorized Shop CRYSP web property.

Alongside the domain change, the site continues to provide general educational information about hemp-derived cannabinoids, product information and shipping. Shop CRYSP states that its products are lab tested for potency and safety and shipped in discreet packaging.

Shop CRYSP limits sales to adults who meet the legally required purchasing age in their

jurisdiction. Because hemp and cannabinoid regulations vary by state and locality, customers are responsible for reviewing applicable laws before ordering. Shop CRYSP does not ship to jurisdictions where its products are prohibited.
