

THE FIRST CLEANSE, REDEFINED: INTRODUCING GLYMED+'S ILLUMINATING CLEANSING OIL

GlyMed+ launches Illuminating Cleansing Oil—an elevated first cleanse that melts away makeup and buildup, leaving skin soft, clean and prepped for treatment.

PROVO, UT, UNITED STATES, August 19, 2026 /EINPresswire.com/ -- Great skin starts with great cleansing. For clients who wear makeup, sunscreen or both, what happens in the first step can influence everything that follows.

[GlyMed+'s Illuminating Cleansing Oil](#) transforms everyday cleansing into a more elevated experience. Designed to dissolve makeup, sunscreen, excess oil and daily buildup, the formula emulsifies with water into a silky, milky texture that rinses clean. The skin is left feeling soft, comfortable and perfectly prepped for the next step in a professional treatment or home care routine.

Illuminating Cleansing Oil

CLEANSING, REIMAGINED

Effective cleansing does not have to leave the skin feeling tight or stripped.

Illuminating Cleansing Oil uses the power of oil to attract and dissolve oil-based impurities. Add water and the formula transforms, lifting away buildup without harsh scrubbing or a heavy, greasy finish.

The result is a first cleanse that feels as luxurious as it is practical.

WHY ESTHETICIANS WANT TO TRY IT

Effortless Removal

Quickly removes makeup, sunscreen, excess oil and everyday buildup.

Barrier-Conscious Cleansing

A nourishing blend of botanical oils helps support soft, comfortable skin while cleansing.

A Clean-Rinsing Transformation

Emulsifies into a lightweight, milky texture that washes away easily without a greasy residue.

Versatile for Multiple Skin Types

Designed as a first cleanse for a wide range of skin types, including oily and acne-prone skin.

Made for the Treatment Room and Beyond

Elevates professional cleansing while making an easy addition to a client's daily home care routine.

YES, EVEN OILY AND ACNE-PRONE SKIN

Oil cleansing and oily skin may sound like an unlikely combination, but that is exactly what makes this cleanser so unique.

Illuminating Cleansing Oil helps melt away excess sebum, makeup and surface impurities without relying on an aggressive cleansing experience. Once emulsified with water, it rinses clean without leaving behind a heavy film.

For oily and acne-prone clients, that means an effective first cleanse that leaves the skin feeling fresh, comfortable and balanced rather than overly stripped.

A BLEND WORTH DISCOVERING

The experience begins with a thoughtfully selected blend of Sunflower Seed Oil, Squalane, Jojoba Seed Oil, Grape Seed Oil, Olive Fruit Oil, Rice Bran Oil, Sweet Almond Oil and Avocado Oil.

Castor Seed Oil helps bind and lift impurities, while Rosemary Leaf Extract and Tocopherol provide antioxidant support. A touch of Grapefruit Peel Oil adds a fresh sensory element, turning a routine cleansing step into something clients will look forward to using.

A NEW FIRST STEP FOR ANY ROUTINE

From the treatment room to the bathroom counter, Illuminating Cleansing Oil brings together effective cleansing, skin comfort and an elevated sensory experience.

It is proof that cleansing can be thorough without feeling harsh, luxurious without feeling heavy and simple without being ordinary.
