

THE SUNSCREEN CLIENTS ACTUALLY WANT TO WEAR: GLYMED+ UNVEILS PURE GLOW SPF 60 OIL

GlyMed+ launches Pure Glow SPF 60 Oil—a broad-spectrum sunscreen with a lightweight, luminous finish that makes daily protection feel like a luxury.

PROVO, UT, UNITED STATES, August 26, 2026 /EINPresswire.com/ -- Everyone knows they need sunscreen. The challenge is finding one that clients actually look forward to wearing.

[GlyMed+'s Pure Glow SPF 60 Oil](#) makes that final step in a client's routine feel more exciting. Its lightweight, broad-spectrum formula glides across the skin with a soft, luminous finish that blends in effortlessly, delivering high-level broad-spectrum protection without the heavy feel or visible white cast often associated with traditional sunscreen. It's the kind of SPF that feels good in the treatment room, looks beautiful on the skin and earns a permanent spot on the bathroom counter.

Glow Pure SPF 60 Oil

THE SPF DILEMMA, SOLVED

For many clients, sunscreen is the step they know they need—but not always the one they want to apply. Too often daily SPF means sacrificing skin comfort for protection.

Pure Glow SPF 60 Oil changes that experience. Its fluid texture melts into the skin, leaving behind a healthy-looking sheen instead of a chalky finish or greasy film. It provides serious UVA/UVB defense while deeply nourishing the skin, making daily sun protection feel less like an obligation and more like a luxury.

WHY CLIENTS WILL WANT TO WEAR IT

Radiance without Residue

Broad-spectrum SPF 60 that blends invisibly into all skin tones without dulling natural radiance.

Nourishment That Shows

Argan Oil, Shea Butter, Coconut Oil and Olive Oil condition and soften the skin without feeling heavy.

Makeup's Best Friend

Creates a smooth, hydrated canvas that pairs effortlessly under cosmetics without pilling or sliding.

Versatile Finishing Touch

The ultimate glow-giving final step for professional facial treatments and daily home routines alike.

YES, EVEN FOR DEEP TONES AND SENSITIVE SKIN

Finding an elevated SPF that performs seamlessly across every skin tone and type has historically been easier said than done.

Pure Glow SPF 60 Oil was specifically formulated to melt into deeper skin tones, work around facial hair, cushion sensitive or compromised skin and not settle heavily into visible pores. Instead of masking the skin, it enhances a client's natural complexion with a smooth, even application and breathable veil of protection.

THE SECRET BEHIND THE GLOW

The secret lies in balancing broad-spectrum defense with botanical skin therapy. A rich base of Argan Oil, Shea Butter, Coconut Oil and Olive Oil delivers instant suppleness and long-lasting moisture.

Topped with antioxidant powerhouses Tocopherol and Rosemary Extract, the formula helps neutralize environmental stress and free radicals throughout the day, keeping the skin looking young and fresh. It's daily sun defense reimagined as a high-performance finishing touch.

RETHINK THE FINAL STEP

From the post-treatment mirror reveal to a client's morning routine, Pure Glow SPF 60 Oil turns mandatory sun protection into the highlight of any skincare regimen.
