

ABP Launches Industry-First Textbook Dedicated to Private Aviation Charter Brokerage

"The World of Private Aviation – The Charter Broker Edition" delivers more than 350 pages of structured education, practical knowledge and reference material.

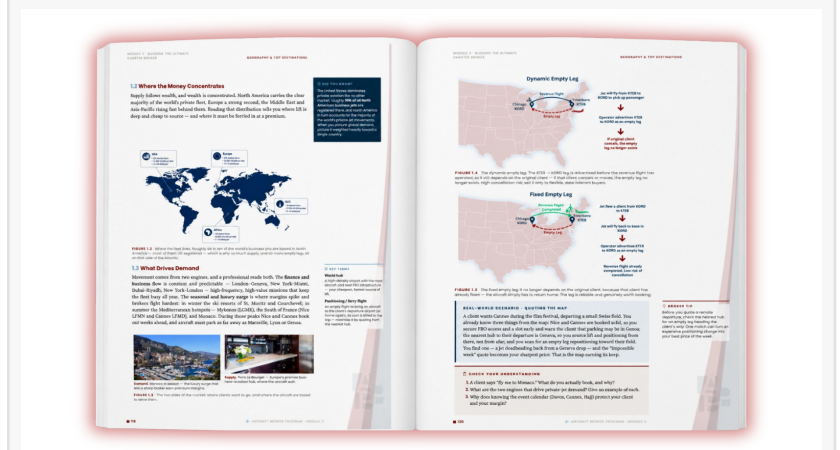

WILMINGTON, DE, UNITED STATES, August 17, 2026 /EINPresswire.com/ -- Aircraft Broker Program ([ABP](#)), a specialized training organization for aspiring private aviation charter brokers, today announced the release of "The World of Private Aviation – The Charter Broker Edition", a new 350+ page [textbook](#) created specifically for the private aviation charter brokerage industry.

Based on ABP's research, the publication is an "industry-first: a dedicated textbook focused specifically on private aviation charter brokerage and the role of the charter broker".

"We identified a significant gap in educational resources specifically dedicated to the charter broker," said Younes Ezzaki, General Manager of Aircraft Broker Program. "There are extensive resources covering aviation and aircraft, but we couldn't find a comprehensive textbook focused on the knowledge and role of the private aviation charter broker. We decided to

create it ourselves.”

The book was developed as a comprehensive educational companion to ABP's online certification program, following the same structure, flow, and logic as the curriculum. It is designed to help students reinforce their learning while providing a reference they can continue using as they enter the private aviation industry.

Although initially exclusive to ABP students, the textbook was also designed to function as a standalone learning resource. "ABP plans to make it available for standalone purchase later in 2026."

More Than 350 Pages of Private Aviation Education:

"The World of Private Aviation – The Charter Broker Edition" contains more than 350 pages of structured educational content, including:

* Detailed descriptions and explanations of private aviation concepts

“

There is a significant gap in educational resources dedicated to the charter broker. We couldn't find a comprehensive textbook on the role of the private aviation charter broker, so we created one.”

Younes Ezzaki

- * Industry terminology and definitions
- * Charter brokerage concepts and practices
- * Illustrations supporting key concepts
- * Knowledge-check quizzes
- * “Did You Know?” educational boxes
- * Content structured around the ABP curriculum

The textbook follows the same progression as the ABP online course, allowing students to use it alongside their training to review concepts and reinforce their understanding.

At the same time, its structure allows it to eventually serve as a standalone educational and reference resource for individuals seeking to understand private aviation charter brokerage.

Written by Aviation and Commercial Professionals:

World of Private Aviation-Charter Broker Edition-Cover

The textbook was written by Younes Ezzaki and Frederic Perez, combining decades of experience across aviation, sales, marketing, brokerage, and program development.

Younes Ezzaki, General Manager of ABP, brings ****16 years of Sales & Marketing experience**** as well as experience as a private jet broker.

Fred Perez, ABP Program Director and program/content builder, brings nearly 30 years of aviation experience and has played a central role in developing ABP's curriculum.

"The goal was to create something students could actually use throughout their training and beyond," said Frederic Perez, Program Director at Aircraft Broker Program. "It follows the logic of the ABP program while giving students a detailed reference they can return to whenever they need to review a concept or part of the industry."

Exclusive Initial Release for ABP Students

The textbook is currently being released exclusively to Aircraft Broker Program students, giving ABP students first access to a resource specifically created around their training.

It is available as an add-on under the Starter and Advanced tiers and is included with the Professional Tier:

- * ****Starter Tier — \$499:**** Textbook available for ****\$119****
- * ****Advanced Tier — \$699:**** Textbook available for ****\$59 — 50% off****
- * ****Professional Tier — \$999:**** Textbook ****included****

The textbook is currently not available for standalone purchase. ABP plans to make it available to the broader market later in 2026.

Expanding ABP's Career Support Ecosystem

The textbook complements ABP's existing training and career support offering, which combines education with practical tools and resources designed to help students transition into private aviation brokerage.

Depending on their program tier, ABP students have access to:

- * ****6 months of Moove access****
- * ****6 months of Pipedrive access****
- * ****Real private aviation contract package****
- * ****Professional Branding Kit****
- * ****Resume Review****
- * ****Interview Support & Brokerage Matching****
- * ****Website Private Jet Search Engine****
- * ****Continuous Support & Mentorship after training****

The addition of a dedicated textbook gives students another long-term educational resource alongside the practical and career-focused components of the ABP program.

Frequently Asked Questions:

Is this the first textbook dedicated to private aviation charter brokerage?

Based on Aircraft Broker Program's research, *The World of Private Aviation – The Charter Broker Edition* is believed to be the **first dedicated textbook specifically focused on private aviation charter brokerage and the charter broker role**.

Can the textbook currently be purchased separately?

No. The initial release is exclusive to ABP students. ABP plans to offer the textbook for standalone purchase later in 2026.

Can it be used without taking the ABP course?

The textbook was designed to work as a standalone educational and reference resource, although its initial availability is limited to ABP students.

How long is the textbook?

The book contains more than 350 pages of educational content, including explanations, definitions, quizzes, illustrations, and "Did You Know?" features.
