

Naperville Managed Service Provider, LeadingIT, Named a 2026 Best and Brightest Company to Work For

NAPERVILLE, IL, UNITED STATES, August 18, 2026 /EINPresswire.com/ -- Managed service provider [LeadingIT](#) (1755 Park St Suite 200, Naperville, IL 60563, (815) 308-2095) announced it has been named one of the 2026 Chicago's Best and Brightest Companies to Work For, an award presented by the National Association for Business Resources (NABR). The recognition places the company among a select group of Chicagoland employers singled out for workplace culture, employee development, and leadership practices.

NABR, which has more than 25 years of experience running the Best and Brightest competitions, evaluates winning companies through an independent research firm. Scoring categories include compensation, benefits and employee solutions; creative wellness and wellbeing solutions; employee enrichment, engagement and retention; employee education and development; recruitment and selection; employee achievement and recognition; communication and shared vision; acceptance, equity and inclusion; work-life blend; community initiatives and corporate responsibility; and leadership, strategy and company performance. LeadingIT's inclusion on the list, announced August 7, 2026, reflects those standards across its full team.

The company's Naperville office, which serves clients throughout Aurora, Lisle, Wheaton, and Downers Grove, has grown into [a trusted technology partner for Naperville-area businesses](#) that need managed IT services, IT support, and cybersecurity handled by a local team. The firm operates as a full-service IT MSP and managed service provider, pairing an in-house IT help desk with proactive IT outsourcing so those companies are not forced to choose between fast response times and enterprise-level protection.

Jennifer Kluge, President and CEO of the National Association for Business Resources and the Best and Brightest Programs, recognized this year's winning companies for their unwavering

commitment to workplace excellence. "By fostering cultures that prioritize their people, these organizations have built the strong, values-driven foundations that distinguish them as leaders within their industries and communities," Kluge said.

The honor adds to a run of workplace-culture recognition for the company. Earlier this year, LeadingIT announced a \$5 million employee profit-sharing pledge, and the firm also holds a 2026 Bell Seal for Workplace Mental Health, Silver level, from Mental Health America. Founded in 2010, the company has grown to support more than 2,500 end users across roughly 200 Chicagoland organizations, with a 98% client and ticket satisfaction rate, while continuing to invest in the IT management, staffing, and training that support both clients and its own team.

The firm is currently expanding its local team and encourages IT professionals in the western suburbs to review its [open IT positions](#). More information about LeadingIT and its work with businesses throughout Naperville and DuPage County is available online.
