# United Energy Launches Strategic Advisory Board

*Company begins multi-phase expansion of its governance and leadership platform to support accelerated growth in LNG, distributed energy, & power infrastructure*

United Energy Corporation

PLANO, TX, UNITED STATES, August 19, 2026 /EINPresswire.com/ -- United Energy Corporation (OTC: UNRG) ("United Energy" or the "Company") today announced the appointment of Nick Flores to its newly established Advisory Board, marking the first step in a broader initiative to strengthen the Company's governance, strategic leadership, and industry expertise as it executes its long-term growth strategy.

> Nick's appointment represents much more than adding a respected industry professional."
>
> *Brian Guinn*

The formation of the Advisory Board reflects United Energy's commitment to building an experienced leadership platform capable of supporting the Company's continued expansion across small-scale liquified natural gas (LNG), distributed power generation, energy logistics, and related infrastructure. Advisors to United Energy will work closely with executive management to help guide operational initiatives, evaluate growth opportunities, and strengthen the Company's long-term strategic planning.

Mr. Flores serves as Chief Executive Officer of Coastal Bend LNG, a privately-held developer of a 19.2 million tonne per annum (MTPA) LNG export facility on the Texas Gulf Coast. Currently in front-end engineering and design (FEED), the Coastal Bend LNG project includes liquefaction, integrated carbon capture capabilities, LNG storage, and marine loading infrastructure. Mr. Flores brings extensive experience in LNG project development, operations, business development, strategic execution, and regulatory engagement within the energy industry.

"Nick's appointment represents much more than adding a respected industry professional" said Brian Guinn, Chief Executive Officer of United Energy. "It marks the beginning of a deliberate effort to assemble a world-class advisory and governance team capable of supporting the next chapter of United Energy's growth. We intend to attract leaders with deep expertise across energy, infrastructure, finance, engineering, and public company governance."

The Company expects to announce additional Advisory Board appointments in the coming months as it continues to expand its leadership capabilities. These appointments are expected to complement future additions to United Energy's Board of Directors and support the Company's commitment to disciplined growth, operational excellence, and long-term shareholder value creation.

"United Energy has built an integrated energy platform positioned to capitalize on the growing demand for domestic natural gas, LNG, and distributed power solutions," added Ryan Blazei, Chief Operating Officer of United Energy. "Strong governance and experienced leadership are fundamental components of that strategy."

United Energy believes that expanding its advisory and governance capabilities will enhance strategic decision-making while positioning the Company to pursue new commercial opportunities, strategic partnerships, and long-term capital market objectives.

###

United Energy Corporation (OTCQB: UNRG) is an energy infrastructure company advancing distributed energy through its integrated Energy Fulfillment™ platform. The Company delivers complete fuel and power solutions by combining LNG production, transportation, regasification, and distributed power generation into a single accountable operating model. Through its infrastructure network and operating subsidiaries, United provides reliable energy solutions to data centers, industrial facilities, aggregates, aerospace, oil & gas operations, and other customers requiring dependable power in demanding environments. The Company’s platform is designed to supply energy where traditional infrastructure is limited, helping customers improve resiliency, operational continuity, and energy security. Headquartered in Plano, Texas, United Energy focuses on scalable energy infrastructure, strategic acquisitions, and long-term value creation through the deployment of integrated fuel and power solutions across North America.
