

55printing Launches Its Own AI Print Platform With 1-2 Day Copies, Variable Data, and Free File Tools

New platform adds 1-2 day color and black and white copies with variable data, free file conversion tools, AI auto design, and tracking through delivery.

GRANDVILLE, MI, UNITED STATES,
August 18, 2026 /EINPresswire.com/ --
55printing.com, an online printer
serving customers since 1999, today

launched a new store platform built around Digital Fast printing, free file conversion tools, and AI-assisted ordering. The catalog lists more than 80 configure-to-order products with live pricing. Color copies and black and white copies are available with 1 to 2 business day production. Variable data printing is offered on those copy jobs. The public Tools hub hosts free file

“

The new platform is the story: 1-2 day copies, variable data, free file tools, AI auto design, after-hours chat, and tracking through delivery. We thank OnPrintShop for the years that got us here.”

Owner, 55printing.com

converters. The free Online Designer includes AI auto design. After-hours AI chat can answer product and order questions when staff are offline, and tracking updates continue through delivery. Qualifying orders include free design setup and a free PDF proof.

“The new platform is the story: 1-2 day copies, variable data, free file tools, AI auto design, after-hours chat, and tracking through delivery. We thank OnPrintShop for the years that got us here,” said the owner of 55printing.com.

Digital Fast and Express copy production are built for short

press windows. The color copies form lists Rush and Express selections at 1 to 2 business days, with full color, black and white, and mixed print options. A dedicated Express Color Copies product is listed the same way. Black and white copies also offer Rush and Express production at 1 to 2 business days and list variable data printing support. 55printing offers variable data printing so names, codes, or other record-by-record changes can be produced from an approved base design. The Digital Fast line across flyers, postcards, business cards, stapled catalogs, bookmarks, envelopes, letterheads, and EDDM postcards is listed with 1 to 2 business day

production and variable data by request. Production days are not the same as carrier transit, weekends, holidays, or proof review time.

The same site now hosts a public Tools hub of free file utilities that customers can open without a login. Live tools include PDF to JPG, Images to PDF for merging JPG, PNG, WebP, and PDF files into one multi-page document, Word to PDF, PowerPoint to JPG and PDF, a QR Code Generator, Grammar Check, an Artwork Quality Enhancer, and AI Uncrop Image. Several converters run in the browser. Guideline Templates, the Paper Types Gallery, AI Design Help, and the File Uploader sit on the same hub so artwork can be prepared before a proof.

The free Online Designer includes AI auto design. A visitor can describe the job and let the studio assemble a print-ready layout, then edit before saving. When staff are offline, an AI chat system can still answer product questions, look up an order, and read live tracking. After a job ships, customers receive tracking-number updates as the carrier status changes, through final delivery. The same tracking record is available in chat.

A [free sample kit](#) can be mailed so a customer can judge paper and coating in hand before a larger order. Current [printing discount codes](#) are published on the deals page, with limits and end dates listed in plain language. The store homepage gathers [cheap printing offers](#) for business cards, flyers, color copies, and mail.

Checkout accepts cards, PayPal, Apple Pay, Google Pay, and Pay Later. Orders ship to all 50 U.S. states, Washington D.C., Alaska, Hawaii, Puerto Rico, the U.S. Virgin Islands, Canada, Mexico, and the United Kingdom.

About 55printing.com

55printing.com is a U.S. online printer that has served customers since 1999. The company sells configure-to-order printing on its own platform, with live pricing, Digital Fast and Express copy production, variable data printing, free file tools, AI auto design, after-hours AI chat, tracking updates through delivery, free design setup on qualifying orders, and shipping across the United States and selected international destinations. The public mailing address is 2885 Sanford Ave SW #22954, Grandville, MI 49418.
