

AFBEST Launches High-Power Portable Juicer for Healthy Active Lifestyles Across US

AFBEST introduces an advanced portable juicer featuring fresh blending power, quiet operation, and sleek mobility for wellness on the go.

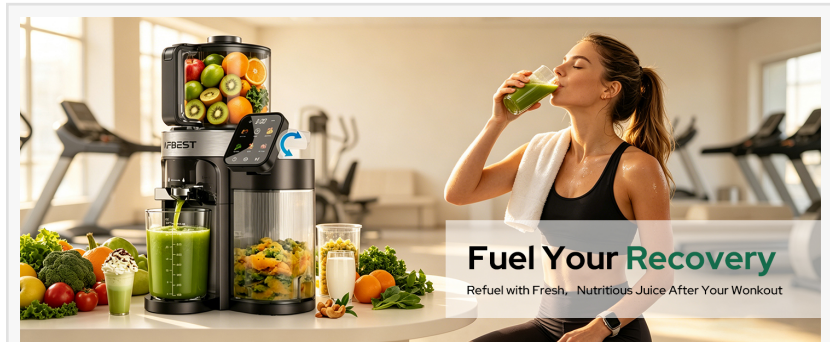

NY, UNITED STATES, August 18, 2026 /EINPresswire.com/ -- AFBEST, a growing innovator in smart kitchen and personal wellness appliances, today announced the official U.S. launch of its next-generation [Portable Juicer](#). Engineered for active professionals, fitness enthusiasts, and daily commuters, this compact blending solution makes fresh nutrition instantly accessible anywhere.

As health-conscious American consumers seek practical ways to maintain balanced diets amidst busy schedules, heavy countertop appliances often prove inconvenient. The new AFBEST Portable Juicer solves this by offering high-torque blending performance inside a lightweight, travel-friendly bottle format.

“

AFBEST empowers health-conscious individuals to enjoy fresh, vital nourishment effortlessly wherever their active day takes them.”

Pro-Grade Power in a Compact Design

Equipped with a high-efficiency motor and six 304 stainless steel serrated blades, the AFBEST Portable Juicer easily crushes frozen fruits, leafy greens, ice, and protein shakes in under 30 seconds. Powered by a long-lasting USB-C rechargeable battery, a single full charge delivers up to 15 blend cycles, allowing users to enjoy fresh smoothies at the gym, office, or during outdoor travel without needing a power outlet.

Smart Safety and Effortless Maintenance

Constructed entirely from food-grade, BPA-free PCTG materials, AFBEST prioritizes both personal safety and long-term durability. An integrated magnetic safety sensor ensures the high-speed blades will not activate unless the lid is completely secured. Cleaning is equally fast: filling the cup with water, adding a drop of soap, and activating the quick-clean cycle restores the unit to pristine condition in seconds.

"AFBEST empowers health-conscious individuals to enjoy fresh, vital nourishment effortlessly wherever their active day takes them."
