

Automat-it Named an OpenAI Select Partner

As an OpenAI Select Partner, Automat-it will work with OpenAI to help organizations build, deploy, and scale AI solutions responsibly and effectively.

TEL AVIV, ISRAEL, August 18, 2026 /EINPresswire.com/ -- [Automat-it](#), the AWS Premier Partner helping over 1,000 startups grow with AI, DevOps, and data, today announced that it has been named an OpenAI Select Partner within the OpenAI Partner Network.

The OpenAI Partner Network is a global program for partners to build, sell, and deliver AI solutions with OpenAI. It brings together partners with deep industry expertise, delivery capabilities, and customer relationships while equipping them with resources, enablement, and support to help enterprises adopt OpenAI frontier models and products and turn them into measurable impact.

“

Being named an OpenAI Select Partner recognizes the work our teams do every day to turn AI ambition into production-grade outcomes for startups.”

Ziv Kashtan, CEO, Automat-it

As an OpenAI Select Partner, Automat-it will continue working with OpenAI to help organizations build, deploy, and scale AI solutions responsibly and effectively. This work will help organizations get more useful work from every token and stronger performance per dollar with GPT-5.6, while using ChatGPT Work to turn ambitious goals into finished work. Automat-it brings deep, hands-on expertise in taking [GenAI and agentic AI solutions](#) from ideation to production for high-growth startups, pairing

frontier models with the cloud engineering, DevOps, FinOps, and compliance foundations they need to scale securely and cost-effectively.

“Being named an OpenAI Select Partner recognizes the work our teams do every day to turn AI ambition into production-grade outcomes for startups,” said Ziv Kashtan, CEO, Automat-it.

“Founders are under enormous pressure to ship AI products fast without letting complexity or cloud costs spiral. By combining OpenAI’s frontier models with our hands-on engineers who act

as an extension of every customer's core team, we help organizations move from concept to measurable business impact with speed, reliability, and confidence."

Automat-it supports startups across EMEA and North America, with hands-on cloud AI, DevOps, FinOps, and data services at every step of the cloud journey, from implementation and compliance to 24/7 operational support.

Its work includes building production-grade agentic AI workflows for fast-growth companies, migrating infrastructure without downtime, and delivering aggressive cost optimization, including for LLM usage, that reduces customers' cloud bills. Automat-it boasts 180+ engineers, 600+ AWS certifications, an average CSAT score of 9.8, and 8 AWS competencies, including in AI services.

Looking ahead, Automat-it plans to develop new solutions that bring OpenAI frontier models to more startups, helping customers translate AI ambition into business outcomes.
