

FOUNDATION BUILDING MATERIALS JOINS DATA CENTER ANTI-CONFERENCE USA 2026 AS PLATINUM SPONSOR

Leading North American building materials supplier brings construction expertise, technology, and commitment to service to the Data Center Anti-Conference

AUSTIN, TX, UNITED STATES, August 18, 2026 /EINPresswire.com/ -- [Foundation Building Materials](#) (FBM), one of North

America's leading specialty building materials distributors, will join the 2026 [Data Center Anti-Conference](#) (DCAC) USA as a Platinum Sponsor, Aug. 24–26 at ACL Live at The Moody Theater in Austin. Now in its 11th year, DCAC brings together the leaders building and powering the world's digital infrastructure to tackle the industry's biggest challenges, strengthen collaboration and advance the critical infrastructure driving the AI economy.

“

FBM understands the demands facing contractors in the field and has built its business around helping customers execute.”

David Isaac, President, DCAC-Live

Founded in 2011, FBM has grown from a small operation in Orange, California, into a major North American supplier serving the construction trades with 380 distribution locations across North America. Now part of the Lowe's family, FBM serves as a critical link between leading building materials manufacturers and the specialty

contractors responsible for keeping complex construction projects moving safely and efficiently.

That role is increasingly important as unprecedented investment in artificial intelligence and digital infrastructure accelerates construction of the data centers and supporting infrastructure powering America's digital economy.

“Data centers may be powered by extraordinary technology, but they still have to be built by people who know how to deliver,” said David Isaac, president of DCAC-Live. “FBM understands

the demands facing contractors in the field and has built its business around helping customers execute. That combination of construction expertise, service and innovation makes them a great addition to the DCAC community."

FBM's participation also brings the perspective of a company investing in technology to modernize how contractors manage their businesses and projects. Through its leading-edge technology, the MyFBM platform, customers can access digital tools designed to streamline ordering, tracking, job management, and other day-to-day needs, combining FBM's longstanding focus on service with technology built for today's construction environment.

FBM's participation also brings the perspective of a company investing in technology to modernize how contractors manage their businesses and projects," said Ruben Mendoza, co-founder and president of Foundation Building Materials. "Through its leading-edge technology, the MyFBM platform, customers can access digital tools designed to streamline ordering, tracking, job management, and other day-to-day needs, combining FBM's longstanding focus on service with technology built for today's construction environment."

-END-

About Foundation Building Materials

Foundation Building Materials is a leading North American distributor of specialty building materials serving construction professionals across the United States and Canada. Founded in 2011, FBM connects leading manufacturers with specialty contractors through safe operations, reliable service and innovative tools designed to help customers keep projects moving. Now part of the Lowe's family, FBM continues to expand its ability to serve construction professionals across North America. Visit www.myfbm.com.

About Data Center Anti-Conference (DCAC)

Now in its 11th year, DCAC USA has become known as the industry's "people's conference," bringing together the leaders, builders, investors, and innovators shaping the future of digital infrastructure. The 2026 conference theme, Operation: Full Throttle – Forging the 5th Utility and Battling Data Center Misconceptions, focuses on advancing meaningful dialogue, workforce development, and collaboration across the rapidly evolving data center industry.
