

DEMARC TELECOM & UTILITY LLC AWARDED MASSACHUSETTS ITT85 CATEGORY 1 DATA CABLING CONTRACT

Demarc provides structured cabling, fiber optics, and network infrastructure services as an approved Massachusetts ITT85 Category 1 contractor.

TYNGSBORO, MA, UNITED STATES,
August 18, 2026 /EINPresswire.com/ --
Demarc Telecom & Utility LLC has been awarded the Massachusetts ITT85 Statewide Contract under Category 1, Data Cabling and Services.

The award makes Demarc an approved ITT85 vendor for Massachusetts state agencies, municipalities, public schools, colleges, authorities, and other eligible organizations seeking data cabling and fiber optic infrastructure services.

“

This award gives us access to new state opportunities, but our approach remains. We focus on doing solid work, maintaining real relationships, and proving what a trade business from this area can do.”

Randy Evans

Based in Tyngsboro, Demarc provides structured cabling, fiber optic installation, fusion splicing, testing, data center cabling, outside plant construction, and emergency fiber restoration throughout Massachusetts and New England.

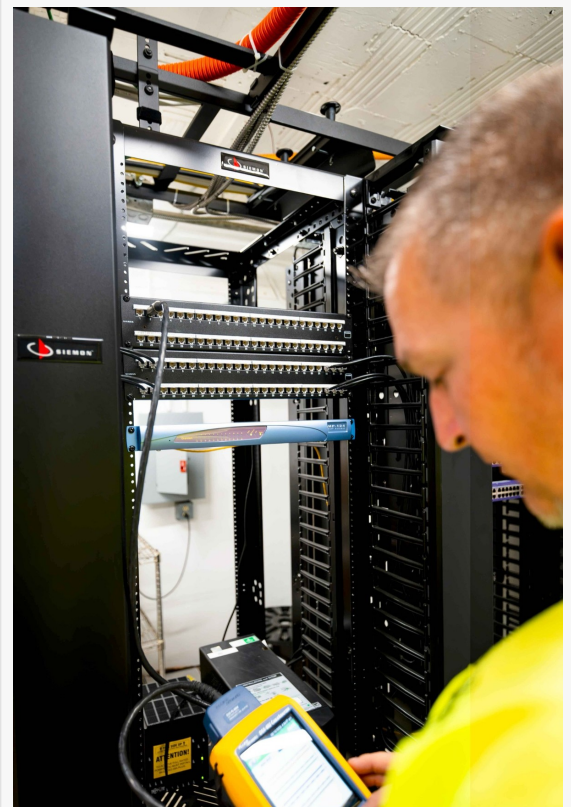

“Being selected for the ITT85 contract is an important milestone for our company,” said Randy Evans, President of Demarc Telecom & Utility LLC. “It gives public organizations across Massachusetts another way to access an experienced local contractor for their fiber optic and data cabling projects.”

The ITT85 award follows Demarc’s selection for a United States Department of Defense Fiber to the Desk project at Hanscom Air Force Base. The company also performs telecommunications infrastructure work for colleges, municipalities, utilities, and commercial organizations throughout New England.

Founded in 2014, Demarc is certified by the Massachusetts Supplier Diversity Office as a Minority Business Enterprise and participates in the Commonwealth's Small Business Purchasing Program.

About Demarc Telecom & Utility LLC
Demarc Telecom & Utility LLC provides telecommunications and utility infrastructure services to public agencies, utilities, and educational institutions across New England. The company specializes in data cabling, fiber optic installation, outside plant construction, fusion splicing, testing, data center cabling, and emergency fiber repair. The company is an SDO-certified MBE, SBPP participant, and OSD ITT85 Category 1 vendor for the Commonwealth of Massachusetts.
