

Next Generation Logistics Announces Dynamics TMS® 10.5 at Microsoft Community Summit NA Exhibition

NGL will showcase the newest release of its Microsoft-focused transportation management platform at Booth 2133 during Community Summit NA 2026

INVERNESS, IL, UNITED STATES,
September 1, 2026 /EINPresswire.com/

-- NGL will showcase the newest release of its Microsoft-focused transportation management platform at [Booth 2133](#) during Community Summit North America 2026 in Nashville.

DynamicsTMS Logo

“

Dynamics TMS® 10.5 coupled with our Managed Transportation offering reflects our commitment to giving Microsoft Dynamics customers modern and practical transportation management solutions.”

Ari Smith, Founder & CEO

Next Generation Logistics, Inc. (NGL), a transportation technology and managed services provider serving the Microsoft business applications community, today announced the upcoming release of [Dynamics TMS®](#) version 10.5. The company will showcase the new 100% Azure Cloud version at Community Summit North America 2026, taking place October 11–15 at the Gaylord Opryland Resort & Convention Center in Nashville, Tennessee. Community Summit North America brings together Microsoft Dynamics users, partners, technology providers and business leaders from across the Microsoft AI and Business Applications ecosystem. NGL will exhibit as a

Silver Sponsor at Booth 2133.

The platform supports transportation functions across the shipment lifecycle, including order and shipment planning, carrier selection, rating, tendering, tracking, freight settlement, reporting and transportation analytics. Dynamics TMS® is designed for organizations using Microsoft Dynamics 365 Business Central and Dynamics 365 Finance & Supply Chain Management, providing transportation capabilities within the broader Microsoft business applications environment.

Visitors will also be able to learn about NGL's [Managed Transportation Services](#), which combines the Dynamics TMS® technology platform with experienced transportation professionals who can assist with daily freight management, carrier coordination, shipment monitoring and continuous process improvement.

- New Business Central or F&O integration capabilities
- Modernized user experience
- Cloud-hosting and security improvements
- New carrier, EDI, rail, telematics or rating integrations
- Improved dashboards, automation or shipment visibility

About Next Generation Logistics, Inc.

Next Generation Logistics, Inc. (NGL) is a transportation technology, managed services and consulting company serving shippers throughout North America. With decades of transportation-industry experience and more than 15 years as a Microsoft ISV partner, NGL provides Dynamics TMS®, Managed Transportation Services and transportation consulting solutions designed to help organizations improve freight visibility, reduce costs and strengthen transportation execution.
