

Kalkreuth Ranks Among Roofing Industry's Top 20 for the 9th Year in a Row

WHEELING , WV, UNITED STATES, August 18, 2026 /EINPresswire.com/ -- Kalkreuth Roofing & Sheet Metal is proud to have once again been recognized among the nation's leading commercial roofing contractors. This year, the company lands at No. 19 on Roofing Contractor magazine's 2026 Top 100 list. The ranking adds to an already remarkable record: over the years, Kalkreuth has now placed among the Top 20 contractors nationwide 9 times. This is a distinction only a few firms in the industry can claim.

Roofing Contractor's Top 100 report ranks the country's top commercial and residential roofing contractors each year. The rankings are based on annual revenue, project volume, and overall business performance, offering an industry-wide benchmark for excellence and growth.

"This recognition is a testament to the relationships we've built with our clients across the country and the commitment of every Kalkreuth employee. Reaching the Top 20 for the ninth time is an achievement we're proud of. It's also motivation to continue raising the bar for quality, safety, and customer service." — Josh Wack, National Accounts Manager

A Decade of Industry Leadership

Reaching the Top 20 nine separate times underscores Kalkreuth's sustained track record of operational excellence and quality customer service. Over the years, the company has grown its reach across the Mid-Atlantic region. This growth has happened while maintaining the values that have guided it since its founding in 1984: hard work, financial strength, commitment to its people, community, safety and relationships.

About Kalkreuth Roofing & Sheet Metal

Founded in 1984 and headquartered in Wheeling, WV, Kalkreuth Roofing & Sheet Metal is a full-service exterior envelope and [commercial roofing contractor](#). Kalkreuth specializes in a full suite of building envelope solutions, including commercial roofing, wall cladding, waterproofing, and traffic coatings, as well as integrated exterior systems.
