

Author Ted Lazaris Expands Documented Terror Collection of True Unexplained Mysteries

The author and filmmaker's growing collection investigates documented cases of unexplained events, strange encounters, and enduring mysteries.

HARTFORD, WI, UNITED STATES, August 18, 2026 /EINPresswire.com/ -- Author, screenwriter and filmmaker [Ted Lazaris](#) is expanding the Documented Terror collection, a growing body of books examining documented cases involving unexplained events, mysterious encounters, consciousness, alleged paranormal phenomena and some of history's most unsettling unanswered questions.

Rather than presenting extraordinary claims as established fact, the Documented Terror collection places readers inside the documented events and allows the evidence, witnesses and competing explanations to drive the story.

Lazaris created the collection for readers fascinated by true mysteries but looking for more than sensational claims. The books examine real cases, documented people and historical records while exploring both conventional explanations and the questions that have kept many of the cases alive for decades.

Subjects explored across the collection include reported UFO encounters, unexplained disappearances, alleged hauntings, near-death experiences, consciousness, strange historical cases and individuals who made extraordinary claims about the limits of the human mind.

The collection does not require readers to believe the extraordinary explanation. Instead, Lazaris uses a story-first investigative style that reconstructs documented events while preserving uncertainty when the historical evidence does not provide a definitive answer.

"I don't want to tell readers what they have to believe," Lazaris said. "I want to take them into these documented cases, show them what happened, show them the evidence and the questions, and let them decide for themselves."

Lazaris is an author, screenwriter, producer and Director of [The Film Co-Operative](#). His work combines cinematic storytelling with an interest in documented mysteries and cases that continue to generate debate long after the original events occurred.

The expanding Documented Terror collection is intended for readers interested in unexplained history, true mysteries, consciousness research, UFO cases, paranormal investigation and unusual documented events.

About Ted Lazaris

Ted Lazaris is an author, screenwriter, producer and Director of The Film Co-Operative. He is the creator of the Documented Terror collection, which explores documented mysteries, unexplained events and extraordinary claims through story-driven investigative narratives.
