

AmiViz Leads the Charge in Building Saudi Arabia's Intelligent Infrastructure at LEAP 2026

RIYADH, RIYADH, SAUDI ARABIA, August 19, 2026 /EINPresswire.com/ -- [AmiViz](#), the Middle East's leading consultative Value-Added Distributor, announced its participation at LEAP 2026, taking place from 31 August to 3 September at RECC Malham in Riyadh. The company will exhibit in Hall 5, Booth C40, located inside DeepFest, where it will showcase advanced cybersecurity, AI-security and data & resilience technologies designed to support Saudi Arabia's rapidly evolving digital ecosystem. AmiViz's participation reflects its commitment to accelerating the Kingdom's journey toward building an intelligent, secure and data-ready future aligned with Vision 2030.

At LEAP 2026, AmiViz will highlight its four core business practices: Cybersecurity, Data & Resilience, Sovereign Cloud & AI, and Digital Infrastructure. These practices represent the essential technology foundations required for the success of any organisation or country. They guide AmiViz's strategy in enabling secure, sovereign and scalable digital transformation across Saudi Arabia, ensuring enterprises and government entities are equipped with the capabilities needed to build and operate next-generation intelligent systems.

AmiViz will also showcase a strong lineup of global technology partners whose solutions reflect the future of secure AI and digital resilience. Cyberhaven, a unified platform for AI and data security, will demonstrate how organisations can protect sensitive information in an era of autonomous agents and generative AI. QuilrAI, an AI security platform built for every agent and LLM, will highlight advanced capabilities for securing agentic workflows and safeguarding AI-driven operations. Tenable, the exposure management company, will present its latest innovations in identifying, prioritizing and reducing cyber exposure across complex enterprise environments. These technology demonstrations will give visitors a firsthand look at the tools shaping the next era of secure digital transformation.

AmiViz's presence inside the DeepFest Hall places it at the center of the region's most influential

AI gathering, where researchers, founders, engineers, policymakers and product leaders converge to explore the future of applied AI. DeepFest 2026 will feature technical deep dives, governance discussions, interactive demos and real-world use cases that spotlight national AI strategies and demonstrate how organisations are deploying AI across critical sectors. AmiViz's involvement reinforces its commitment to advancing secure AI adoption and supporting Saudi Arabia's ambition to lead in responsible and sovereign AI innovation.

Commenting on the company's participation, Ramkumar Balakrishnan, CEO of AmiViz, said: "LEAP is where the future of technology takes shape, and AmiViz is proud to contribute to that momentum. Our focus is on enabling Saudi Arabia's intelligent infrastructure with technologies that are secure, sovereign and built for the next generation of AI-driven innovation. We are committed to supporting the Kingdom's national priorities by bringing world-class solutions that strengthen cybersecurity, elevate data resilience, advance sovereign cloud and AI capabilities, and reinforce the digital infrastructure that empowers organisations to build confidently for the future."

AmiViz warmly welcomes all visitors, partners and industry leaders to Hall 5, Booth C40 at LEAP 2026 to experience the new technologies essential for building the Kingdom of the future and to explore how secure, sovereign and data-ready infrastructure will power Saudi Arabia's next digital leap forward.

About AmiViz

AmiViz is a leading consultative Value-Added Distributor headquartered in the Middle East, serving enterprise and government customers across the MEA region through a strong ecosystem of vendors, channel partners, resellers, system integrators, MSPs, and MSSPs.

Built on a deep cybersecurity foundation, AmiViz operates across four integrated technology practices: Cybersecurity, Data & Resilience, Sovereign Cloud & AI, and Digital Infrastructure. The company helps organisations make complex technology decisions with confidence by combining regional market insight, technical expertise, and a practical understanding of compliance, sovereignty, resilience, and business outcomes.

AmiViz works closely with vendors and channel partners to bring high-impact technologies to market through presales expertise, enablement, demand generation, and customer engagement across key MEA markets.
