

DYU Announces European Availability of M20 All-Terrain Long-Range E-Bike

The 20-inch fat-tire model combines a 750W rated motor, 1500W peak output and up to 160 km of pedal-assist range.

ROTTERDAM, NETHERLANDS, August 19, 2026 /EINPresswire.com/ -- [DYU Bikes](#) today announced European availability of the [M20 all-terrain long-range e-bike](#), a 20-inch fat-tire model developed for extended mixed-terrain riding. The current configuration combines a 750W rated motor with up to 1500W peak output, a removable 48V 18.2Ah lithium-ion battery and three riding modes.

DYU M20 all-terrain long-range electric bike.

The M20 is rated for up to 160 km in pedal-assist mode. Actual range varies with rider weight, terrain, temperature, assistance level and other operating conditions. The product page lists a maximum speed of 45 km/h. DYU advises riders to follow local traffic regulations and, where public-road use is restricted, ride only in permitted private or off-road areas.

“

The M20 is intended to give riders a stable, high-capacity platform for longer mixed-terrain routes while keeping speed, braking and ride information easy to manage.”

DYU Bikes Spokesperson

A 20 x 4.0-inch tire format is intended to provide a broad contact patch on asphalt, gravel and other mixed surfaces. The aluminum-frame bike also includes Shimano 7-speed gearing, dual-actuated mechanical disc brakes and a combined front-fork and seat suspension setup. Its listed

weight is 39 kg.

"The M20 is intended to give riders a stable, high-capacity platform for longer mixed-terrain routes while keeping speed, braking and ride information easy to manage," said a DYU Bikes spokesperson.

The electrical system includes battery-management protection and a seven-to-eight-hour listed charging time. A handlebar display presents battery and ride information, while an integrated

front light supports visibility in lower-light conditions. The current specification also lists an IP54 water-resistance rating and support for inclines up to 15 degrees.

DYU is positioning the M20 for riders evaluating range, traction and power in one platform for permitted private, recreational and off-road routes. The M20 is available through dyubikes.com for eligible European destinations, subject to stock and regional delivery coverage.

The M20 announcement adds a long-range, fat-tire option to DYU's broader portfolio of folding, city, lightweight and utility electric mobility products.

About DYU Bikes

DYU Bikes develops electric bicycles and electric utility products for urban travel, recreation and practical mobility. Its current range includes compact folding bikes, full-size city bikes, fat-tire models and the CampX electric folding wagon. Product specifications, regional availability and policy details are published at dyubikes.com.
