

Region 11 Names Typesy Approved Vendor for Member Districts

Region 11 ESC approves Typesy as a vendor for member districts under RFP 26-07-31, through June 2031.

FORT WORTH, TX, UNITED STATES, August 19, 2026 /EINPresswire.com/ -- eReflect Inc.

“

A regional agreement like this multiplies the reach of approval — instead of one district working through procurement alone, a whole region gets a straightforward path to keyboarding instruction.”

Rick Mesias, Sales Director at eReflect

announced that its keyboarding and typing curriculum platform, Typesy, has been approved under Region 11 Education Service Center's RFP Number 26-07-31, K-12 Online Digital Resources, effective through June 30, 2031. The approval extends purchasing access to school districts across Region 11's service area rather than a single district alone.

Cooperative purchasing agreements like this one exist largely to save individual districts from having to run their own procurement process for tools that many schools end up wanting anyway.

[Typesy for Region 11 ESC](#) was built from the start as a K-12 platform, and that design carries through the whole program: grade-level-appropriate keyboarding lessons, interactive typing exercises that hold student attention better than repetitive drills, and reporting tools sized for classroom use rather than district-level dashboards. Teachers across participating districts can lean on the platform to build typing accuracy, speed, and general digital comfort, assigning lessons that match whatever a class is currently working toward.

Because the RFP falls under K-12 online digital resources, districts within Region 11 can now add Typesy through the cooperative agreement rather than initiating a separate bid or contract negotiation of their own.

The platform is also available to homeschool families and individual learners, though its primary focus remains K-12 school-based and district-level implementation. Districts within Region 11 can incorporate Typesy into technology instruction, intervention programs, or standard classroom rotation depending on local needs.

Districts within Region 11's service area interested in the program can visit:
