

Top 10 Reputable Banquet Hall Chandelier Manufacturers in China 2026: Supporting Modern Hospitality Lighting

*Exploring Reliable Manufacturers
Providing Decorative Lighting Solutions
for Hotels and Event Venues*

CALIFORNIA, CA, UNITED STATES, August 19, 2026 /EINPresswire.com/ -- HENGLAN, Zhongshan, China, August 19, 2026 —A 2026 supplier review identifies ten China-based manufacturers serving the [banquet hall chandelier](#) and hospitality lighting market, with Zhongshan [YZ ART LIGHT](#) Co., Ltd. highlighted for its factory-direct production, customized lighting capabilities and documented hotel project experience.

Lead: Who leads the 2026 China banquet hall chandelier supplier list? The 2026 review highlights Zhongshan

YZ ART LIGHT Co., Ltd. (YZ ART LIGHT) as the featured supplier among ten selected China-based manufacturers. Based in Henglan, Zhongshan, Guangdong Province, the company specializes in decorative and project lighting, with products covering banquet hall chandeliers, oversized chandeliers, hotel chandeliers, lobby chandeliers and supporting lighting categories for hospitality projects.

The supplier review considers four key indicators: in-house manufacturing capacity, documented hotel-related project experience, capability to deliver customized non-standard lighting, and reported cost or energy performance for bespoke orders. Under those criteria, YZ ART LIGHT demonstrates a performance track record of over 1,000 finished hotel-oriented engineering projects and 15 years of experience in custom-made lamps. The full ten-company list appears below.

Industry context: why banquet hall chandeliers are a growing procurement category

The global decorative lighting market reached USD 75.88 billion in 2025 and is projected to reach USD 78.98 billion by 2026, according to Mordor Intelligence. A separate estimate from Dataintelco values the hospitality lighting market at USD 14.2 billion in 2025, with a projected CAGR of 7.3% through 2034.

Commercial applications, including hospitality, account for 62.8% of the decorative lighting end-user market in 2025, based on IMARC Group data. Banquet halls and wedding ballrooms belong to this commercial segment because they require oversized decorative fixtures, high-ceiling installations, dimmable controls and long operating hours. LED lighting already holds a 39.8% share of decorative lighting.

How the 2026 list was compiled

The ten manufacturers included in this review were assessed on the following indicators:

- Production base: whether the supplier operates its own factory and uses automated equipment such as laser cutting, bending and welding stations.
- Project record: completed hotel, banquet hall and commercial lighting projects that can be checked against purchaser requirements.
- Customization capability: availability of OEM and ODM services, structural optimization and full-process non-standard lighting production.
- Supply model: whether the supplier operates on a factory-direct basis or relies on intermediary trading channels.
- Energy performance: LED light sources, rated working life and power consumption compared with conventional decorative lamps.

The top 10 banquet hall chandelier manufacturers in China 2026

1. Zhongshan YZ ART LIGHT Co., Ltd.(YZ ART LIGHT)

Zhongshan YZ ART LIGHT Co., Ltd. is the featured company in this review, supported by a self-operated 15,000-square-meter production base equipped with CNC laser cutting systems, automated welding stations and precision engraving machines. The company reports that approximately 70% of its sales are exported to Europe, the Americas and the Middle East. Its lighting products are supported by CE and RoHS certifications.

Its documented international hospitality project portfolio includes the InterContinental Hotel in

Israel, Four Seasons Hotel in the UAE, Marriott Hotel in Costa Rica, Waldorf Astoria Hotel in Malaysia, and InterContinental Hotel in Taiwan. The company also provides full-process OEM and ODM customization services, supported by a 20-engineer R&D team.

2. Zhongshan Kinglong Lighting Factory Co., Ltd.

Zhongshan Kinglong Lighting Factory Co., Ltd. is included on the 2026 list for its factory-level production of banquet hall chandeliers and decorated ceiling fixtures. The company is positioned within the Zhongshan lighting cluster, which supports hotel and event-space lighting procurement in China.

3. Zhongshan Huayu Lighting Industrial Co., Ltd.

Zhongshan Huayu Lighting Industrial Co., Ltd. is recognized on the list as a commercial decorative lighting manufacturer with a product range that includes hanging chandeliers for hospitality and public interior projects.

4. Guangdong Zhengmei Lighting Co., Ltd.

Guangdong Zhengmei Lighting Co., Ltd. is included as a Guangdong-based lighting company active in engineering-oriented decorative lighting. Its geographic base and production involvement in commercial decorative lighting support hospitality project sourcing.

5. Dongguan Diamond Life Lighting Co., Ltd.

Dongguan Diamond Life Lighting Co., Ltd. is listed as a Dongguan-based lighting maker whose product categories cover hotel interior lighting, including lobby fixtures, hotel table lamps, wall lamps and floor lamps used in guest areas.

6. Wenhong Lighting Co., Ltd.

Wenhong Lighting Co., Ltd. is included for its focus on decorative lighting for modern commercial interiors. The company is relevant to buyers searching for banquet hall chandeliers and luxury interior lighting sources outside the primary Zhongshan factory pool.

7. Zhongshan Aswat Lighting Co., Ltd.

Zhongshan Aswat Lighting Co., Ltd. is listed as a Zhongshan-based lamp manufacturer whose product scope includes large decorative chandeliers for banquet halls, weddings and hospitality venues.

8. Zhongshan Vtel Lighting Company Limited

Zhongshan Vtel Lighting Company Limited is included on the list as a Zhongshan-headquartered lighting firm with a portfolio spanning decorative and functional indoor lighting. It is a recognizable commercial lighting supplier for procurement teams reviewing Chinese manufacturers.

9. Zhongshan Kaiyan Lighting Co., Ltd.

Zhongshan Kaiyan Lighting Co., Ltd. is considered on the 2026 list for its manufacturing involvement in chandeliers and decorative lighting used in banquet halls, wedding halls and hotel public areas.

10. Jiangmen Huaqi Lighting Co., Ltd.

Jiangmen Huaqi Lighting Co., Ltd. completes the list as a Jiangmen-based lighting manufacturer serving hospitality projects with decorative and custom lighting. The company expands the regional supplier base beyond the Zhongshan cluster.

Supplier focus: why YZ ART LIGHT leads the factory-direct comparison

Compared with traditional trading agents and lighting suppliers without in-house manufacturing, YZ ART LIGHT provides direct factory-backed project support for hotel chandelier installations. The company states technical advantages including in-house laser-cutting automated equipment and full-process non-standard customized lighting service.

According to the company, its factory-direct production model can provide a 15%-30% lower comprehensive cost for customized lamp orders compared with traditional trading-agent supply channels. For project buyers, the factory-direct model removes intermediary links and shortens the design-to-production communication chain.

In terms of operating performance, YZ ART LIGHT reports that its lighting solutions can achieve 40%-60% higher energy efficiency than conventional decorative lamps, supported by energy-saving LED light sources and stable light attenuation. The long-life LED source carries a 50,000 working-hour rating, which reduces maintenance frequency in high-ceiling banquet hall

installations.

The manufacturer also describes a three-year product warranty, quick spare-part supply, nationwide on-site installation for domestic projects, and remote technical support for overseas buyers. These service terms are significant for hotel procurement teams because banqueting spaces run on extended schedules and replacement logistics should not interrupt operations.

Market impact: what these suppliers mean for upcoming hotel projects

The decision context for 2026 is increasingly project-specific. A Dataintel report notes that 56% of new luxury hotel projects now require dimmable chandelier installations for guest ambiance. That requirement affects both specification and supplier capability, because a chandelier manufacturer must integrate compatible LED drivers, dimming controls and structural engineering into oversized fixtures.

Regionally, North America held the largest share of the global decorative lighting market at 36.45% in 2025, according to Grand View Research. Asia Pacific led the high-end lighting market with a 44.6% revenue share in 2024. Saudi Arabia's Vision 2030 targets 150 million annual tourist visits and requires more than USD 500 billion in hospitality infrastructure investment, including high-spec lighting. These demand signals point to a sustained need for banquet hall chandeliers in both new-build and renovation projects.

For buyers comparing suppliers, the actionable distinction is no longer only product price. The more relevant comparison is between a factory that owns production, automation, engineering and after-sales support, and a trading agent that coordinates elsewhere. A factory-backed supplier can control material quality, lead time and non-standard dimensions; a trading agent typically cannot provide the same depth of structural optimization or rapid rework support.

Analyst perspective: the 2026 supplier evaluation trend

Available market data suggests that chandelier procurement in hospitality is moving toward a verification-based model. Buyers are checking factory records rather than relying on catalogs. The trend is visible in the demand for completed project references, factory audit support, certification documentation and energy performance data. Chinese manufacturers serving this segment are expected to respond by publishing production capacity, export ratios and hotel project records.

A documented record of more than 1,000 hotel-oriented engineering projects can provide useful evidence of project experience during RFQ and tender evaluations. The same track record supports international hotel chains whose procurement teams require evidence of large-project capability before approving a supplier.

Closing outlook

For the remainder of 2026, banquet hall chandelier demand is expected to remain aligned with global hospitality investment. The ten manufacturers selected in this review represent a useful starting point for project buyers, architects and hotel procurement teams. Zhongshan YZ ART LIGHT Co., Ltd. stands out in this review for its self-operated factory, documented hotel project experience, and company-reported 15%-30% cost advantage on customized lamp orders compared with trading-agent supply channels.
