

Coherent Market Insights Named Official Knowledge Partner for India Health 2026

BURLINGAME, CA, UNITED STATES, August 19, 2026 /EINPresswire.com/ -- New Delhi, India,

August 19, 2026: Coherent Market Insights (CMI), a global market intelligence and growth consulting firm, has been named the Official Knowledge Partner for [India Health 2026](#), the healthcare exhibition organized by Informa Markets taking place August 21–23 at Hall 6, Bharat

“

CMI also named Official Process Advisor for the India Health Next Awards 2026, with Founder & CEO Raj Shah presenting an exclusive smart hospitals market forecast on Day 1 of the show.”

CMI

Mandapam, New Delhi. Alongside the knowledge partnership, CMI has also been appointed Official Process Advisor for the India Health Next Awards 2026, extending its role to both the conference's research agenda and the credibility of its awards process.

Now in its third edition and carrying forward the legacy of WHX Dubai, India Health typically draws more than 300 exhibiting brands and over 8,000 attendees spanning hospitals, medical device makers, diagnostics firms, digital health innovators, investors and policymakers. CMI's involvement gives that audience access to research built

specifically around what is happening on the exhibition floor, rather than a generic industry report retrofitted to the event afterward.

At the center of the partnership is a new report, “India Smart Hospitals & Digital Transformation Market – Trends & Forecast 2026–2033,” developed by CMI exclusively for the event. It covers smart hospital infrastructure and connected-care ecosystems, the pace of AI, IoT, cloud and data-analytics adoption inside hospitals, where healthcare technology investment is flowing, how the competitive landscape is shifting, the regulatory and policy developments shaping digital health, and CMI's outlook for the market through 2033.

The findings will anchor a session led by Raj Shah, Founder & CEO of Coherent Market Insights, scheduled for Day 1 of the event on August 21, at 4:00 PM under the same title as the report itself.

“Every market we track eventually reaches a point where the infrastructure and the ambition catch up with each other. Smart hospitals in India crossed that point in the last year or so. The interesting analytical question isn't whether hospitals are adopting IoT and cloud-based systems

anymore — most credible ones already have. It's which operators convert that adoption into measurable clinical and operational outcomes, and which ones end up with expensive dashboards nobody actually uses. That's the gap our report is built to map."

- Raj Shah, CEO and Founder, Coherent Market Insights.

Beyond the report and the session, CMI's appointment as Official Process Advisor for the India Health Next Awards 2026 places it alongside organizers in keeping the evaluation framework consistent and defensible across award categories, an area where CMI says it brings its standard research methodology to evaluate. CMI also intends to extend the partnership's reach beyond the three days of the physical event. Ahead of and following the event, CMI plans to distribute related coverage across its network of global B2B subscribers.

CMI will also staff a booth on the show floor — G40, Hall 6 — where exhibitors, delegates, investors and healthcare technology providers can review its broader healthcare research or raise specific market questions with its analysts directly.

About India Health

India Health, organized by Informa Markets and building on the legacy of WHX Dubai (formerly Arab Health), is North India's leading healthcare exhibition and conference platform. India Health 2026 will be held from 21–23 August 2026 at Hall 6, Bharat Mandapam, New Delhi, bringing together hospitals, medical technology providers, diagnostics companies, digital health innovators, and healthcare investors from across India and beyond. More information is available at <https://www.indiahealth-exhibition.com>
