

SDM Software Successfully Completes SOC 2 Type I Audit

Independent assessment validates the company's security controls as it continues to support IT teams managing configurations across Group Policy and Intune

SAN ANSELMO, CA, UNITED STATES,

August 25, 2026 /EINPresswire.com/ -- SDM Software, The Configuration Experts, today announced the successful completion of its System and Organization Controls (SOC) 2 Type I audit. The independent assessment confirms that the company's controls meet Trust Services Criteria for Security established by the American Institute of Certified Public Accountants (AICPA).

The SOC 2 Type I report reflects SDM Software's ongoing commitment to protecting customer information and maintaining strong security practices across its operations. To prove compliance with enterprise-level security standards, SDM Software met 28 criteria and validated 84 controls in this audit.

SDM Software is trusted by more than 700 organizations globally across highly regulated industries including healthcare, finance, government, military, and education. [Learn more](#) about how Change Manager for Group Policy and Intune by SDM Software ensures consistent configuration management both on premises and in the cloud.

About SDM Software

Since 2006, SDM Software has been delivering advanced configuration governance solutions that help organizations secure their Windows environments and maintain business continuity both on premises and in the cloud. Solutions cover the full lifecycle of configuration management on Microsoft platforms, including reporting, migration, automation, auditing, change control, recovery, and compliance reporting. As experts in Intune and Group Policy trusted by more than 700 organizations worldwide, SDM Software helps optimize the configuration journey on Microsoft platforms.
