

Arvore Partners Marks 13 Years of Consolidating Founder-Led North American Businesses

Arvore marks 13 years of acquiring and scaling founder-led businesses, and now extends its operating playbook to the Texas market.

CALGARY, AB, CANADA, August 26, 2026 /EINPresswire.com/ -- Omnigence Asset Management ("Omnigence") today marked the 13th anniversary of Arvore Partners LP, including its

predecessor ("Arvore"), its affiliated lower mid-market private equity platform. Since 2013, Arvore has acquired, integrated, and improved founder-led businesses across North America, building a portfolio that today spans more than 200 locations across five industry verticals.

Over 13 years, Arvore has completed acquisitions of founder-led companies in dental labs, building products distribution, environmental services, automotive maintenance, master franchisors, and light industrial — refining a repeatable approach to sourcing, integrating, and operating small businesses at scale. Since 2013 the fund has grown into a systematic, multi-vertical consolidation platform.

That evolution has been built on operating discipline rather than any single transaction: a proprietary technology platform, EquiONE, that integrates newly acquired companies in roughly eight weeks and monitors more than 5,000 operational metrics in real time, and a team of more than 30 investment and operating professionals with deep experience across the sectors Arvore consolidates.

"Thirteen years in the lower mid-market teaches you discipline," said Stephen Johnston, partner at Arvore and a director of Omnigence. "We've learned how to acquire well, integrate quickly, and — most importantly — actually operate these businesses. That hard-won experience is exactly what we're bringing to the US market."

The anniversary comes as Arvore extends its consolidation model to the US, with an initial focus on the Texas lower mid-market — one of the largest and most fragmented founder-owned

business economies in North America — applying the same operating playbook it has refined at home over more than a decade.
