

# A New Play of Light: MONDAINE Doppio Rose Gold Watch

*The latest addition to the Doppio collection introduces a warm new expression of Swiss design, where light, texture and proportion come together.*

PFÄFFIKON SZ, SWITZERLAND, August 19, 2026 /EINPresswire.com/ -- [MONDAINE](#) expands its [Doppio collection](#) with the new Doppio Rose Gold Watch, introducing a fresh interpretation of the collection's distinctive design language. The 33 mm Swiss Made model combines a polished stainless steel case and mesh bracelet with a rose gold-toned dial that brings warmth and depth to the collection.

The dial features a subtle moiré effect, created by fine circular black patterns that shift with changing light. Contrasting black hands and indexes enhance readability while creating a striking visual contrast that defines the watch's character.

The Doppio collection is built around the idea of repetition. Double-line hands and indexes, a concave dial and a double-domed sapphire crystal work together to create a layered sense of depth while maintaining the clean simplicity that defines MONDAINE.

The new Rose Gold edition introduces a softer colour palette, adding a different dimension to the collection without changing its distinctive identity.

"Doppio creates depth through subtle details. The new Rose Gold model adds a fresh interplay of light and texture while preserving the collection's signature clarity and balance." - Maria Valenzuela, Global Marketing Group Director

The polished 33 mm stainless steel case and finely woven mesh bracelet create a refined profile that wears comfortably throughout the day. Its balanced proportions suit a wide range of wrist sizes and personal styles, making it an effortless companion from work to evening.

Powered by a Swiss Made quartz movement, the Doppio Rose Gold combines understated design with the reliable precision expected from a MONDAINE timepiece.

At MONDAINE, responsible watchmaking begins with creating products that people will want to wear for years, not seasons. By combining Swiss design with quality craftsmanship and carefully considered materials, every collection is created with longevity at its core.

“

Doppio creates depth through subtle details. The new Rose Gold model adds a fresh interplay of light and texture while preserving the collection's signature clarity and balance.”

*Maria Valenzuela, Global Marketing Group Director*

This commitment extends from the way each watch is designed and manufactured to the belief that the most sustainable product is one that continues to be valued over time. Because it's always #timetocare.
