Direct Waterproofing Wins #1 Award for Drainage & Basement Waterproofing in Toronto

Toronto waterproofing company receives AI Award recognition for its work helping homeowners protect their basements and foundations from water damage.

TORONTO, ONTARIO, CANADA, August 19, 2026 /EINPresswire.com/ -- -

> “Every home is different. Our job is to find the source of the problem and give the homeowner a reliable solution. Our entire team is proud to receive this award.”
>
> *Aquatech Waterproofing*

Direct Waterproofing has been recognized with an AI Award as the #1 provider of basement waterproofing in Toronto and the GTA, adding another achievement to the company’s long history of serving homeowners throughout the region.

Direct Waterproofing has been waterproofing basements since 1995. Over the years, the team has worked on homes throughout Toronto and the GTA, helping homeowners address everything from basement leaks and foundation cracks to drainage problems, mould and recurring moisture.

The recent recognition highlights the company’s work in both basement waterproofing and drainage solutions, two services that often go hand in hand when protecting a home from water.

YEARS OF WATERPROOFING EXPERIENCE BEHIND THE AWARD

Basement water problems can come from several sources. Cracks in a foundation, poor drainage around a property, failing weeping tiles and heavy rainfall can all contribute to water finding its way inside.

Direct Waterproofing takes a problem-solving approach to each project. Instead of treating every wet basement the same way, the team assesses the property and recommends a solution based on where the water is coming from and what the home needs.

Depending on the property, that could include interior or exterior waterproofing, foundation repair, weeping tile installation, French drains, sump pumps or other drainage work. Homeowners interested in the specifics can learn more about the company’s exterior

waterproofing process.

“Every home is different, and our job is to find the source of the problem and give the homeowner a solution they can rely on”, said a spokesperson for Direct Waterproofing. “Receiving this award for basement waterproofing in Toronto is something our whole team can be proud of. We’ve spent years building our reputation one project and one homeowner at a time.”

WHAT THIS RECOGNITION MEANS FOR HOMEOWNERS
For homeowners, choosing a waterproofing company often happens at a stressful time. There may already be water coming into the basement, signs of mold or damage to a finished space.

Finding an experienced team that can identify the problem and recommend the right solution makes the process much easier.
Direct Waterproofing’s team is fully licensed and provides waterproofing and drainage services across Toronto and communities throughout the GTA. The company also backs its basement waterproofing services with warranties of up to 25 years.

While the award is an exciting recognition for the team, the goal at Direct Waterproofing hasn’t changed. They’ll continue helping Toronto and GTA homeowners keep their basements dry and protected.

With more than 30 years of experience, Direct Waterproofing provides exterior and interior basement waterproofing, foundation repair, weeping tile installation, French drains, sump pump installation, drainage services and other water management solutions for water and drainage problems of all sizes.
Homeowners dealing with basement leaks, foundation concerns or drainage problems can contact Direct Waterproofing for an assessment and estimate.

Have you noticed a leak in your basement? Request an estimate for basement waterproofing in Toronto today by visiting the Direct Waterproofing website.
