

Sky Building Materials Expands Nationwide Fire-Rated Glass Offering with KERALITE® SELECT

Commercial glass distributor increases nationwide access to KERALITE fire-rated glass ceramic for schools, healthcare, commercial, and other applications.

DALLAS, TX, UNITED STATES, August 20, 2026 /EINPresswire.com/ -- Sky Building Materials, a commercial building materials distributor serving customers throughout the United States, announced the nationwide availability of [KERALITE®](#) SELECT fire-rated glass ceramic, expanding the company's fire-rated glass offering for commercial construction projects requiring tested fire-protective glazing solutions.

Manufactured by EuroKera, a joint venture between Corning and Saint-Gobain, KERALITE is a fire-rated glass ceramic designed to provide protection against flames, smoke, and hot gases while maintaining high levels of visibility. Depending on product configuration and application, KERALITE products are available for a range of fire-rated applications and are tested to applicable North American standards.

“

By offering KERALITE nationwide, we can help contractors, glazing professionals and other commercial buyers get the fire-rated glass they need for projects throughout the United States.”

Zak Fardi, CEO

"Fire-rated glazing is an important part of today's commercial construction environment, and our goal is to make these products easier for customers to source," said Zak Fardi, CEO of Sky Building Materials. "By offering KERALITE nationwide, we can help contractors, glazing professionals and other commercial buyers get the fire-rated glass they need for projects throughout the United

States."

KERALITE SELECT solutions are available for applications including fire-rated doors, windows, sidelites and transoms. Available configurations include KERALITE SELECT and KERALITE SELECT Filmed, providing options for different fire-rating and impact-safety requirements.

Sky Building Materials expects demand for KERALITE to span a variety of commercial and institutional projects, including schools and universities, healthcare facilities, commercial buildings, government facilities and other buildings requiring code-compliant fire-rated openings.

The addition of KERALITE expands Sky Building Materials' ability to serve contractors, architects, glazing professionals and commercial buyers seeking specialized fire-rated glass and architectural glazing products from a nationwide supplier.
