PEAKS Dental Announces Reseller Partnership with Hello Annie

Partnership brings Annie's AI-powered front office automation natively into the PEAKS platform, expanding PEAKS' AI-driven practice management ecosystem

DENVER, CO, UNITED STATES, August 27, 2026 /EINPresswire.com/ -- PEAKS Dental, Inc., developer of the PEAKS Pro and PEAKS Endo Pro™ dental practice management platforms, today announced a reseller and integration agreement with Hello Annie, developer of Annie, an AI-powered front office assistant purpose-built for dental practices. Under the agreement, PEAKS will resell and natively integrate Annie's call-answering, appointment-scheduling, and patient-communication technology directly within the PEAKS platform, giving PEAKS clients a single, unified system rather than a bolt-on add-on.

> “Annie represents the state of the art in AI-powered dental front office services and patient communication. Their advanced technology and service are a perfect fit for PEAKS' advanced features.”
>
> *Rusty Bradbury of PEAKS Dental*

Annie answers inbound phone calls and website chat around the clock, handling routine patient questions, booking and rescheduling appointments in real time against a practice's live schedule, and escalating complex or sensitive conversations to front-desk staff when needed. For practices that miss a significant share of inbound calls during business hours — time that Hello Annie and industry data tie directly to lost same-day scheduling and new-patient revenue — the goal is to close that gap without adding headcount, while freeing existing front-office staff to focus on the patients in front of them.

The partnership extends PEAKS' broader AI strategy, which favors native, structured-data-first integrations over disconnected point solutions. Annie joins other AI-powered capabilities in the PEAKS ecosystem aimed at giving practices a connected, intelligent front-to-back office rather than a patchwork of disparate tools.

Rusty Bradbury, President of PEAKS Dental, had this to say: “Annie represents the state of the art in AI-powered dental front office services and patient communication. Their advanced technology and service are a perfect fit with PEAKS' advanced features and functionality. As we continue to build out PEAKS as a fully connected, AI-enabled practice management platform,

partners like Hello Annie let us bring best-in-class capabilities to our clients natively, instead of asking practices to stitch together disconnected tools themselves.”

The integration will roll out to PEAKS users beginning mid-September 2026 with onboarding support provided jointly by the PEAKS and Hello Annie teams. Pricing and packaging details are available through PEAKS sales representatives.

About PEAKS Dental PEAKS Dental, Inc. is a Colorado-based dental practice management software company offering PEAKS Pro, a platform for general dental practices, and PEAKS Endo Pro™, purpose-built for endodontic specialty practices. Formerly EDDSON Dental, Inc., PEAKS was rebranded in April 2026 following nearly a decade of platform development in partnership with a full-service dental supply company. PEAKS is focused on giving dental practices a connected, structured-data-first technology foundation — including native AI integrations — rather than a patchwork of disconnected tools.

About Hello Annie Hello Annie develops Annie, an AI-powered front office assistant for dental practices. Annie answers inbound calls and website chat 24/7, books and reschedules appointments in real time, and integrates with practices' existing systems — helping practices reduce missed calls and no-shows while giving front-desk teams more time for in-office patient care.
