

CDS Landscaping Announces Summer Landscaping Promotion in Tampa Bay

Limited-time promotion offers 10% off labor on eligible landscaping projects through September 23, 2026.

ST. PETERSBURG, FL, UNITED STATES, August 20, 2026 /EINPresswire.com/ -- [CDS Landscaping](#) has announced a limited-time Summer Special offering customers 10% off labor on eligible landscaping projects. The promotion runs through September 23, 2026, giving Tampa Bay homeowners an opportunity to improve their outdoor spaces while reducing labor costs.

The offer may be applied to qualifying projects completed by CDS Landscaping. Available services include landscape design and installation, sod installation, hardscaping, new fence installation, landscape lighting, irrigation, drainage solutions, landscape renovation and property cleanouts.

A professionally landscaped Tampa Bay home featuring a healthy lawn, tropical plants and colorful flower beds designed to complement the property.

Florida yards face challenges that can affect their appearance and function. Heavy rain, strong sunlight, sandy soil, poor drainage, and uneven irrigation coverage can make it difficult to maintain healthy grass and plants. CDS Landscaping evaluates the entire property before recommending a solution based on the conditions of the yard, the customer's goals, and the available budget.

"Many homeowners know they want to improve their yards, but they may be unsure where to begin," said Chris Stone, owner of CDS Landscaping. "We look at the property, learn how the customer wants to use the space, and develop a practical plan. This special gives customers a chance to move forward while saving 10% on labor."

Established in 2016, CDS Landscaping is based in St. Petersburg and serves communities

throughout Pinellas County and portions of Southern Hillsborough County.

Through its [landscape design and installation services](#), the company plans outdoor spaces around each property's layout, sunlight, drainage and existing features. Projects may include new plants, updated beds, rock or mulch, sod, irrigation improvements, and complete landscape renovations.

CDS Landscaping provides sod installation for projects of at least 1,000 square feet. Before installation, the team measures the area and reviews irrigation coverage. The process may include removing old material, preparing and grading the soil, installing the sod, and adjusting irrigation timers to support establishment.

The company also installs paver patios and walkways, retaining walls, brick edging, stepping-stone paths, and fire pits. These hardscape features can create useful areas for walking, seating, and entertaining. Properly designed retaining walls can also help manage changes in elevation, control erosion, and define planting areas.

Drainage and irrigation solutions are developed based on grading, water flow, soil conditions, and existing systems. CDS Landscaping also installs new vinyl, aluminum and wood fences. The company specializes in new fence installations and does not provide fence repairs or chain-link fence installations.

"Every property is different, so each project requires its own plan," Chris added. "Our goal is to provide clear recommendations, complete the work carefully and give the customer an outdoor space that works better for their home."

TAKE ADVANTAGE OF THE SUMMER SPECIAL

Each project begins with a consultation to review the property, customer's ideas, materials, and budget. CDS Landscaping then prepares a quote based on the agreed scope of work.

The 10% Off Labor Summer Special ends September 23, 2026. Customers should contact CDS Landscaping to confirm project eligibility, scheduling availability, and complete promotional terms.

Homeowners interested in using the promotion are encouraged to [request a landscaping quote](#) before the deadline. CDS Landscaping can also be reached at (727) 452-9835.
