

Cambridge Online Tutors Outlines Its Online Tuition Service for UK Students

ST NEOTS, CAMBRIDGESHIRE, UNITED KINGDOM, August 20, 2026 /EINPresswire.com/ -- [Cambridge Online Tutors](#), an online tuition provider covering a wide range of subjects, has outlined how its lessons are structured across Key Stages 1 to 5.

Each lesson lasts an hour and is tailored to the student. Lessons are available privately on a one-to-one basis, shared between two students, or taken as a small group. Discounts are offered, including for block bookings.

Teaching follows the curricula for Key Stage 1 through to Key Stage 5, taking in GCSE and A-Level. The subject list covers STEM areas such as maths, physics and computer science, alongside languages ranging from Arabic to Welsh. All tutors hold enhanced DBS clearance.

The sciences are taught to exam level. [Biology Tutoring UK](#) is offered from Key Stage 4 to Key Stage 5, covering both GCSE and AS/A-Level, with tutors working through key concepts, sample questions and exam technique. Chemistry tuition is listed from Key Stage 1 to Key Stage 5, again spanning GCSE and AS/A-Level, and a [Chemistry Tutor](#) will adapt pace and teaching style to the individual student.

Tutors monitor progress and give students regular feedback. Where younger pupils are concerned, parents and guardians are kept updated on how their child is getting on.

Cambridge Online Tutors has also supported The Prince's Trust Future Steps campaign, with members of the team taking part in a walking challenge to raise money for the charity.
