

# Big Bites Out of High Prices: 2026 RV Clearance Brings Affordable Adventure

*Discover how 2026 RV clearance deals are making travel more affordable, giving buyers opportunities to find quality RVs and enjoy new adventures for less.*

BOUTTE, LA, UNITED STATES, August 24, 2026 /EINPresswire.com/ -- 2026 new RV clearance deals are drawing attention to the changing mix of new travel trailers and fifth wheels available to Louisiana buyers as model-year inventory continues to move through regional RV markets. Bent's RV is currently listing 2026 units across its Albany and Boutte locations, with inventory covering lightweight travel trailers, family-oriented floor plans and larger fifth-wheel options.

## 2026 Clearance Inventory Reflects A Range Of RV Uses

The current inventory indicates how new RV buyers can compare different layouts, sizes and equipment levels within the 2026 model year. The selection includes compact trailers designed for couples, bunkhouse layouts for families and larger units with additional living and sleeping areas.

Current listings include the Keystone Springdale, Forest River Wildwood and Keystone Passport lines, along with fifth-wheel models such as the Keystone Montana High Country. Availability varies by location and stock number, making current inventory information important for

discounted travel trailers for families

2026 Keystone Springdale 1200bt

anyone researching a specific model.

For consumers comparing [travel trailers for sale in Louisiana](#), model specifications provide useful information beyond the advertised price. Length, dry weight, sleeping capacity, slide-outs, water capacity and electrical requirements can all affect whether a trailer matches a tow vehicle and intended camping style.

Lightweight Options Remain Part Of The 2026 Mix

Compact travel trailers continue to form part of the new inventory. The [2026 Keystone Springdale 1200BT](#), for example, is listed as a lightweight, single-axle travel trailer measuring about 15 feet 11 inches long. Its listed equipment includes a full-size bed, private bathroom, power awning, two-burner cooktop, microwave and 12-volt refrigerator.

The availability of smaller units also creates options for consumers researching discounted travel trailers for families who may need a manageable trailer without moving into a larger floor plan. Other Springdale models listed by the company include bunkhouse configurations designed to accommodate additional sleepers.

The 2026 Keystone Springdale 2300BH is one example. The listed floor plan includes a front bedroom, rear bunkhouse, kitchen, and corner bathroom, with a sleeping capacity of up to eight people.

2026 Keystone Passport 3300BK

## Featured 2026 Models Show Different Floor Plans

Among the listed units, the 2026 Keystone Springdale 1200bt represents the smaller end of the current travel-trailer range. Its compact dimensions and single-axle design distinguish it from larger family and multi-room models. The 2026 Forest River Wildwood 27RK provides a different layout. The current Albany listing describes a rear-kitchen travel trailer with a king-size front bed, panoramic windows, a Versa-Lounge, and one slide-out. The listed sleeping capacity is up to six people, while the trailer measures approximately 33 feet 6 inches.

Larger family-oriented layouts are also represented by the 2026 Keystone Passport 3300BK. The model is listed with a private rear bunkhouse, front queen bedroom, kitchen island, three slide-outs, and sleeping capacity of up to 10 people. A current Boutte listing identifies the unit as new and available, although inventory status can change.

## Fifth-Wheel Inventory Adds Larger Options

The 2026 inventory is not limited to travel trailers. A current listing for the [2026 Keystone Montana High Country 377FL](#) places the fifth-wheel model at the Albany location. The inventory page identifies the unit as new and available, with the model listed alongside other 2026 fifth-wheel products.

For consumers researching the best affordable RVs for camping, comparing trailer classes is important. A smaller travel trailer may suit short trips and lighter tow vehicles, while a fifth wheel generally requires a different towing setup and provides a larger residential-style floor plan. The distinction also matters for buyers comparing ownership costs. Purchase price is only one consideration. Towing equipment, vehicle capacity, storage, insurance, maintenance and campground requirements can affect the overall cost of operating an RV.

## Where Louisiana Buyers Can Review 2026 Inventory

Consumers researching new RV dealers in Louisiana can use current inventory listings to compare model years, floor plans and locations before inquiring. The company maintains locations in Albany and Boutte, with new RV inventory displayed online and organized by model and condition.

For shoppers asking where to find 2026 RV clearance deals, inventory pages provide a practical starting point for checking which units are currently listed, where individual stock is located, and whether a particular model remains available. Clearance inventory can change as individual units are sold or moved between locations. For this reason, model availability, specifications, and pricing should be confirmed directly before publication or purchase decisions.

## RV Service Extends Beyond The Initial Purchase

The company's service department handles maintenance and repair work for RV owners, including customers who did not purchase their unit from the company. The service operation includes nearly 30 service bays, a team of repair professionals, and a body shop for more extensive damage. Service offerings include rubber roof and metal replacement, satellite system work, RV awning service, tow bar and braking-system work, appliance installation and repair, fifth-wheel hitch installation and RV generator repairs. The department also handles extended service warranty policies.

For owners searching for 2026 new RV clearance deals, access to service resources can also be relevant when evaluating long-term ownership. A new RV still requires routine inspections, equipment checks, and repairs over its service life. The service department states that its technicians and installers hold factory RVDA certifications. The company also participates in the Route 66 RV Network, providing access to a broader network of dealer service bays and certified technicians.

### Inventory And Service Information Provide A Broader View

The current 2026 inventory illustrates the range of RV configurations available in Louisiana, from compact single-axle trailers to larger bunkhouse travel trailers and fifth wheels. Buyers can compare sleeping capacity, dimensions, weight, and equipment before determining which type of RV fits their intended use. For those reviewing travel trailers for sale in Louisiana, the combination of online inventory information and service details can help create a more complete picture of RV ownership. Current listings show examples from Keystone and Forest River, with availability changing as individual units are sold.

The 2026 Keystone Springdale range also includes family-focused models such as the 1230BB and 2300BH. The 1230BB is listed as a lightweight travel trailer with bunk beds and sleeping capacity for up to six, while the 2300BH is listed with capacity for up to eight.

Likewise, the discounted travel trailers for families category can include different floor plans rather than one standard trailer type. Bunkhouses, convertible sleeping areas, and larger living spaces can serve different household needs, while weight and towing requirements remain important considerations.

### Availability Remains The Key Variable

The 2026 Keystone Springdale 1200BT illustrates how clearance inventory can change quickly. Current listings show units in both Albany and Boutte, while individual stock records can move from available to sold. For consumers comparing the 2026 Forest River Wildwood 27RK, the current Albany listing provides specifications including its rear-kitchen layout, one slide-out, and six-person sleeping capacity. Inventory status and pricing should be verified at the time of inquiry.

The 2026 Keystone Passport 3300BK similarly demonstrates the range of larger travel trailers available in the current model year. Its listed bunkhouse layout and sleeping capacity of up to 10 people place it in a different segment from compact Springdale models. For shoppers comparing the 2026 Keystone Montana High Country 377FL, the current inventory listing identifies it as a new fifth wheel located in Albany. Its classification means buyers must consider fifth-wheel towing requirements before comparing it directly with conventional travel trailers.

#### About Bent's RV
